

2004 Annual Town Report

FREMONT NEW HAMPSHIRE

Memorial Day 2004 • Village Cemetery, Main Street

The 2004 Annual Town Report is dedicated to several members of our Community who left us this past year. Our hope is that they are on a journey to a better place.

Ruth M Doucette

Ruth was a rural mail carrier in Fremont, the Town Treasurer from 1971 to 1980 and active in the Grange.

Daniel G Francis Sr

Dan was very active in the Boy Scouts in Fremont from 1988 to 2002. He was also an umpire for Fremont's farm league baseball team. He was instrumental in Boy Scout Organization in Fremont.

Fond remembrances of all those community members who are no longer with us.

"Lovely, lasting peace of mind, Sweet delight of human kind."

~ Thomas Parnell (1679 - 1718) "Hymn to Contentment"

In life, you can never do a kindness too soon because you never know how soon it will be too late.

~ Ralph Waldo Emerson

Collected Works of Abraham Lincoln, edited by Roy P. Basler.

"Four score and seven years ago our fathers brought forth on this continent, a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal."

From the November 19, 1863 Gettysburg Address

"The dogmas of the quiet past, are inadequate to the stormy present. The occasion is piled high with difficulty, and we must rise -- with the occasion. As our case is new, so we must think anew, and act anew. We must disenthrall ourselves, and then we shall save our country."

From the December 1, 1862 Message to Congress

Notary Public and Justice of the Peace services are available at the Town Office during most posted office hours. Call for more information.

APPRECIATION

Commencing with the 1991 Town Report, the Town has annually recognized a resident who has given much of their time to the town.

THE 2004 APPRECIATION RECOGNIZES

GERTRUDE "TRUDIE" BUTLER

Trudie Butler was born and grew up in Newton NH. She graduated from Sanborn Seminary in Kingston in 1939. She went to the Massachusetts General Hospital School of Nursing and graduated in 1944. She married William Butler in 1944 as well. The family moved to Fremont in 1970 after William retired from the US Navy; to be nearer to other family.

Trudie was a State Representative from 1978 to 1990. While in the House, she was also on the Health and Welfare Committee. She was very active in legislative affairs in New Hampshire.

In the 1980's she was one of the major contributors to the formation of the original Fremont newsletter that was hand-delivered to each household. Every Friday, she also faithfully delivers the Ellis School Newsletter to many places in town.

She is currently the President of the Universalist Society, which organizes and holds an annual service at Fremont's Old Meetinghouse.

She is also the Town's Health Officer.

Trudie lives in the family farm on North Road; her daughters Bonnie Freeman and Judy Peterson also reside in Fremont with their families.

Trudie has wonderful vegetable gardens and flower gardens and shares the surplus with many others.

Thank you Trudie, for your many contributions to Fremont and our community!

TOWN OF FREMONT NH 2005 TOWN MEETING WARRANT

**To the inhabitants of the Town of Fremont in the County of
Rockingham in said State, qualified to vote in Town Affairs:**

**FIRST SESSION FOR VOTING: TUESDAY MARCH 8, 2005 TO BE HELD AT THE
FREMONT SAFETY COMPLEX AT 425 MAIN STREET IN FREMONT NEW
HAMPSHIRE** **TIME: 8:00 AM to 7:00 PM**

ARTICLE 1: To choose by ballot all necessary Town Officers for the ensuing year.

ARTICLE 2: Are you in favor of striking **ARTICLE IV Section 4** from the Fremont Zoning Ordinance.

The Planning Board recommends this article.

ARTICLE 3: Are you in favor of amending **ARTICLE IX Section C. Definitions # 1 and #2c** of the Fremont Zoning Ordinance to read as follows: (1) *Wetlands: means an area that is inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal conditions does support, a prevalence of vegetation typically adopted for life in saturated soil conditions.* (2c) **Watershed Protection Area:** Wetlands: shall include that land area within one hundred (100) feet of any designated wetland. *In addition, the protection area shall include "poorly drained" and "very poorly drained" soils and a one hundred (100) foot buffer around these soils.*

The Planning Board recommends this article.

ARTICLE 4: Are you in favor of amending **ARTICLE X Second Paragraph** of the Fremont Zoning Ordinance to read as follows: The following regulations in this ordinance shall apply to all lands designated as special flood hazard areas by the Federal Emergency Management Agency (FEMA) in its "Flood Insurance Study for Rockingham County" together with the associated Flood Insurance Rate map of the town dated May 17, 2005 which are declared to be a part of this ordinance and are hereby incorporated by reference.

The Planning Board recommends this article.

ARTICLE 5: Are you in favor of amending **ARTICLE XI Section D. DISTRICT BOUNDARIES # 1. Location** of the Fremont Zoning Ordinance to read as follows: The Aquifer Protection District is defined as the area shown on the map entitled "*Fremont Water Resources Map 2004.*"

The Planning Board recommends this article.

ARTICLE 6: Are you in favor of amending **ARTICLE XVI Title** of the Fremont Zoning Ordinance to read as follows: **ELDERLY OPEN SPACE.**

The Planning Board recommends this article.

ARTICLE 7: Are you in favor of amending **ARTICLE XVI Section B. GENERAL STANDARDS # 2** of the Fremont Zoning Ordinance to read as follows: *The total number of elderly housing units approved by the Board under this ordinance in the Town of Fremont shall not exceed ten percent of the total dwelling units in the Town of Fremont.* (Explanatory note: for example, the 2000 US Census details 1,201 dwelling units in the Town of Fremont *therefore allowing 120 elderly units total*).

The Planning Board recommends this article.

ARTICLE 8: By Petition: "Shall we adopt the provisions of RSA 40:13 (SB2, official ballot voting), to allow official ballot voting on all issues before the Town of Fremont NH?" To be voted on, at the polls, election day, 2nd Tuesday in March 2005. (3/5 Majority Vote required).

SECOND SESSION: SATURDAY MARCH 12, 2005 TO BE HELD AT THE ELLIS SCHOOL AT 432 MAIN STREET IN FREMONT NEW HAMPSHIRE
TIME: 5:00 PM

ARTICLE 9: To see if the Town will vote to raise and appropriate the sum of nine hundred thousand dollars (\$900,000) for the purchase of the Glen Oakes land, to protect the Town's rural character and natural resources by conserving land; further to authorize the issuance of not more nine hundred thousand dollars (\$900,000) in bonds and/or notes under and in compliance with the Municipal Finance Act, RSA 33:1 et seq, as amended; to authorize the Selectmen to apply for, obtain and accept federal, state or other aid, if any, which may be available for said project and to comply with all laws applicable to said project; to authorize the Selectmen to issue, negotiate, sell and deliver said bonds and notes and to determine the rates of interest thereon and the maturity and other terms thereof; and to authorize the Selectmen to take any other action or to pass any other vote relative thereto. The Selectmen and the Budget Committee recommend this appropriation. (2/3 ballot vote required.)

ARTICLE 10: To see if the Town will vote to raise and appropriate the sum of one million dollars (\$1,000,000) for the purchase of land or other property interests therein to protect the Town's rural character and natural resources by conserving land; not more than one million dollars (\$1,000,000) of such sum to be raised through the issuance of bonds or notes under and in compliance with the Municipal Finance Act, RSA 33:1 et seq, as amended; to authorize the Selectmen to apply for, obtain and accept federal, state or other aid, if any, which may be available for said project and to comply with all laws applicable to said project; to authorize the Selectmen to issue, negotiate,

sell and deliver said bonds and notes and to determine the rate of interest thereon and the maturity and other terms thereof; and to authorize the Selectmen to take any other action or to pass any other vote relative thereto. Said bonds/notes will be issued on an as needed basis, to acquire easements or open space on parcels as recommended by the Conservation Commission, with the approval of the Board of Selectmen in accordance with the provisions of RSA 36-A:4. The Selectmen recommend this appropriation. The Budget Committee does not recommend this appropriation. (2/3 ballot vote required.)

ARTICLE 11: To see if the Town will vote to raise and appropriate the sum of thirty-five thousand dollars (\$35,000) for the purchase of a one ton dump truck with plow and to authorize the withdrawal of fifteen thousand dollars (\$15,000) from the Highway Equipment Capital Reserve Fund. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

ARTICLE 12: To see if the Town will vote to raise and appropriate the sum of thirty-five thousand dollars (\$35,000) to be placed in existing Capital Reserve Funds for the following purposes. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

- a. Police Cruiser \$10,000
- b. Radio Communication Equipment \$5,000
- c. Fire Truck \$12,500
- d. Highway Equipment \$7,500

ARTICLE 13: To see if the Town will vote to raise and appropriate the sum of fifteen thousand dollars (\$15,000) to be placed in the existing Highway Building Capital Reserve Fund. The Selectmen recommend this appropriation. The Budget Committee does not recommend this appropriation. (Majority vote required.)

ARTICLE 14: To see if the Town will vote to raise and appropriate the sum of seven thousand five hundred dollars (\$7,500) to be placed in the existing Playground Equipment & Construction at Memorial Ballfield Capital Reserve Fund. The Selectmen recommend this appropriation. The Budget Committee recommends five thousand dollars (\$5,000) of this appropriation. (Majority vote required.)

ARTICLE 15: To see if the Town will vote to raise and appropriate the sum of twenty-one thousand five hundred fifty-nine dollars (\$21,559) for the purchase and equipping of a new police cruiser and to authorize the withdrawal of twenty-one thousand five hundred fifty-nine dollars (\$21,559) from the Police Cruiser Capital Reserve Fund. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

ARTICLE 16: To see if the Town will vote to raise and appropriate the sum of four thousand nine hundred forty dollars (\$4,940) for the purchase of OHRV Safety Equipment and further to authorize the withdrawal of four thousand nine hundred forty dollars (\$4,940) from the Police Department OHRV Equipment Special Revenue Fund for said purchase. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

ARTICLE 17: To see if the Town will vote to raise and appropriate the sum of fifty-three thousand five hundred dollars (\$53,500) to shim and overlay paving, and do finish shoulder work on Sawmill Lane, Barrell Run, and Wildwood Drive; and to grade, roll and pave the remainder of Tibbetts Road. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

ARTICLE 18: To see if the Town will vote to raise and appropriate the sum of thirty thousand six hundred ninety dollars (\$30,690) for the purchase of a Fire Department utility truck and to authorize the withdrawal of thirty thousand six hundred ninety dollars (\$30,690) from the Fire Truck Capital Reserve Fund. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

ARTICLE 19: To hear the report of the Budget Committee and take any action the Town deems necessary.

ARTICLE 20: To see what sum of money the Town will vote to raise and appropriate for general municipal operations, exclusive of all other warrant articles already voted. The Budget Committee recommends two million thirteen thousand one hundred sixty-seven dollars (\$2,013,167) and the Board of Selectmen recommends two million twenty-one thousand three hundred twenty-seven dollars (\$2,021,327). (Majority vote required.)

ARTICLE 21: To see if the Town will vote to accept deeded title to Kingman Court as designated on Plan # D-31094 from Shawn & Kim Senter, with a two year maintenance bond to be held by the Town in the amount of \$5,000. (Majority vote required.)

ARTICLE 22: To see if the Town will vote to accept deeded title to the roads in Phase I of the Commerce Park/Tuck Woods subdivision. This includes a portion of Tuck Drive (first 1,940 feet); Ingalls Lane (1,058 feet) and Dexter Court (800 feet). A cash bond to be in place until completion of the remaining work; and a maintenance bond to be in place thereafter as determined by the board of Selectmen in consultation with the Road Agent and Town Engineer. (Majority vote required.)

ARTICLE 23: To transact any other business that may legally come before this meeting.

Given under our hands and seal this Third day of February in the Year of Our Lord Two Thousand and Five.

BUDGET OF THE TOWN OF

F R E M O N T

BUDGET FORM FOR TOWNS WHICH HAVE ADOPTED
THE PROVISIONS OF RSA 32:14 THROUGH 32:24

Appropriations and Estimates of Revenue for the Ensuing Year

January 1, 2005 to December 31, 2005

IMPORTANT:

Please read RSA 32:5 applicable to all municipalities.

1. Use this form to list the entire budget in the appropriate recommended and not recommended area. This means the operating budget and all special and individual warrant articles must be posted.
2. Hold at least one public hearing on this budget.
3. When completed, a copy of the budget must be posted with the warrant. Another copy must be placed on file with the town clerk, and a copy sent to the Department of Revenue Administration at the address below.

This is to certify that this budget was posted with the warrant on February 11, 2005.

BUDGET COMMITTEE

Please sign in ink.

9 Maximum Allowable Appropriations (lines 1 + 8)	\$3,293,664.80

NARRATIVE FOR THE 2005 TOWN MEETING WARRANT

The following narrative seeks to provide additional information for voters pertaining to the articles proposed in the Town Meeting Warrant.

VOTE AT THE POLLS ON TUESDAY MARCH 8, 2005 FROM 8:00 AM TO 7:00 PM AT THE SAFETY COMPLEX AT 425 MAIN STREET IN FREMONT:

Article 1 The ballot contains all persons running for an elected position within the Town. There will be a separate ballot for officials running for Fremont School District offices. Sample ballots will be posted at the Town Hall, Safety Complex, Library and Post Office for viewing before Election Day. You can vote by absentee ballot on Articles 1 through 8. The remainder of the Town Meeting deliberation takes place on Saturday March 12, 2005.

Articles 2 through 8 will be on the written ballot in summary form, with a circle to blacken with yes or no.

Article 2 will be voted upon by ballot, at the polls on March 12, 2005. This article proposes to update the Fremont Zoning Ordinance by deleting Article IV Section 4. Striking this article puts the review authority relative to driveway setbacks in the hands of the Planning Board through Site Plan Review and Subdivision Regulations.

Article 3 will be voted upon by ballot, at the polls on March 12, 2005. This article proposes to update the Fremont Zoning Ordinance by updating the definitions of wetlands to bring Fremont into conformance with the State DES interpretation of wetlands.

Article 4 will be voted upon by ballot, at the polls on March 12, 2005. This article proposes to update the Fremont Zoning Ordinance by adopting the newest version of the Flood Maps as required by the Federal Emergency Management Agency. The flood maps have been revised to an effective date of May 17, 2005.

Article 5 will be voted upon by ballot, at the polls on March 12, 2005. This article proposes to update the Fremont Zoning Ordinance by adopting the current USGS Water Resources Map. This map is posted at the Town Hall.

Article 6 will be voted upon by ballot, at the polls on March 12, 2005. This article proposes to update the Fremont Zoning Ordinance by renaming the former Elderly Housing Ordinance to call it the Elderly Open Space chapter of the Zoning Ordinance. This makes the title more fitting in terms of description of the chapter.

Article 7 will be voted upon by ballot, at the polls on March 12, 2005. This article proposes to update the Fremont Zoning Ordinance by adding to the example

calculation in the end parenthesis, and by changing the verbiage for description of housing units in place. This helps to clarify the current language and intent.

Article 8 will be voted upon by ballot, at the polls on March 12, 2005. This article was submitted by petition and proposes to change the way that Fremont votes for Town Meetings. This article must pass by a 3/5 majority. This would change the traditional Town Meeting, by doing away with that as a form of government. The SB 2 method puts all questions before the voters on an "official ballot" and has a deliberative session for discussion of articles, instead of traditional floor voting and discussion on warrant and budget items.

**VOTE AT ELLIS SCHOOL GYMNASIUM AT 432 MAIN STREET IN FREMONT NH
AT THE ANNUAL TOWN MEETING SATURDAY MARCH 12, 2005
BEGINNING AT 5:00 PM**

All remaining articles (numbered 9 through 23) will be acted upon at the recessed session of Town Meeting, which begins at 5:00 pm on Saturday March 12, 2005. This part of the meeting is held at the Ellis School at 432 Main Street, in the gymnasium.

By law, any warrant article requesting funds must be considered by the Selectmen and Budget Committee, and each must make a recommendation on the proposed expenditure. This recommendation is noted at the end of each article within the official warrant. The type of vote required is also written in parentheses at the end of each article, such as majority or 2/3 vote requirements.

The estimated amount of tax impact for each article is also included in a final statement for each proposal within this narrative. This does not necessarily mean an increase of that amount, but that the amount listed is the estimated portion of the overall tax rate attributed to the individual item. Summing all of the proposed expenses yields an estimated tax rate of approximately \$4.56. This is down approximately \$0.50 from 2004.

It is important to note that the tax impact estimates are based on some assumptions about the amount of revenue the Town will collect, and the total amount of all assessed valuation. We have used the current valuation total with a 5% growth multiplier. The revaluation will change values, but for the purposes of estimating, it is a safety assumption to use what we already know to be true and forecast growth similar to that which we have seen in recent years (approximately 5% annually on average).

Article 9 requests authorization for a \$900,000 bond issue to purchase the Glen Oakes land and easements to protect the Town's rural character and natural resources. This property is located adjacent to Spruce Swamp and several other protected properties thereby making a larger contiguous area of conserved or protected lands. The Glen Oakes land is approximately 337 acres total; of which the Town proposes to purchase approximately 312 outright and maintain an easement on the other 25 acres.

If passed, this article would have no tax impact until fiscal 2006 when the first bond payment would be made. It is estimated that the tax impact in year one of the bond repayment (2006) would be approximately \$0.43. This estimate is before any reduced expenses from savings from reduced residential development.

Article 10 requests authorization for a bond issue to purchase land or easements to protect the Town's rural character and natural resources. The proposed bond issue is \$1,000,000 for the purchase of land or easements on property in Fremont, to preserve open space.

The Open Space Committee formed in November 2003 and is a group of residents interested in preserving open space land in Fremont. They have worked diligently this past year and a half on options for open space preservation and possibilities for Fremont to protect these important areas. They are studying the tax impacts of open space preservation, and have formulated a matrix through which to select important properties to protect.

If passed, this article would have no tax impact until fiscal 2006 when the first bond payment would be made. It is estimated that the tax impact in year one of the bond repayment (2006) would be approximately \$0.46. This estimate is before any reduced expenses from savings from reduced residential development.

Article 11 requests funding (\$35,000) for the purchase of a one ton truck with plow for the Highway Department. Of the purchase price, \$15,000 is proposed to be withdrawn from the Capital Reserve Fund for Highway Equipment, making the net tax dollars to be raised \$20,000. This truck would be used primarily by the town's full-time employee for everything from putting up signs, cold patching, fixing gravel shoulders, traveling for materials when needed, hauling materials, plowing snow, and picking up debris. It is estimated that the tax impact of this purchase would be approximately \$0.09.

Article 12 requests funding (\$35,000) for four existing capital reserve accounts. Each fund has already been established for future use. These funds will add to what has already been set aside. These funds accrue over time and are then used to fund larger capital purchases when needed. To see the amount already established in each of these funds, refer to the annual report of the Trustees of Trust Funds in the Town Report. It is estimated that the tax impact of this appropriation would be approximately \$0.15.

Article 13 requests funding (\$15,000) for the Highway Equipment Capital Reserve Fund. These funds would be used to offset future highway equipment capital costs. This article is listed separately because the Selectmen and Budget Committee recommendations differ. It is estimated that the tax impact of this appropriation would be approximately \$0.06.

Article 14 requests funding (\$7,500) for the Playground Equipment & Construction at Memorial Ballfield Capital Reserve Fund. These funds would be used to offset the future expense of a playground to be constructed at Memorial Park on Main Street. In addition to the Capital Reserve Fund, a special revenue fund has been set up for any donations and fundraisers for this project as well. This article is listed separately because it is not fully recommended by the Budget Committee. It is estimated that the tax impact of this appropriation would be approximately \$0.03.

Article 15 requests funding (\$21,559) for the purchase of a Police Cruiser. This purchase is in line with the every other year replacement plan for police cruisers. This entire sum will be withdrawn from the Police Cruiser Capital Reserve Fund. Currently, cruisers are used two years on the front line; two years on the second line; and two years unmarked. There are three cruisers in the fleet, one blazer, and a DARE vehicle. The tax impact of this purchase would be zero.

Article 16 requests funding (\$4,940) for the purchase of OHRV Safety Equipment. The funds will be withdrawn from the Police Department OHRV Special Revenue Fund created for the purpose. The total tax effect of this article is zero. The Police Department intends to purchase this equipment for use on the OHRV trails and in training exercises. The article funds safety equipment for officers and training equipment. The tax impact of this purchase would be zero.

Article 17 requests funding (\$53,500) to complete road construction and overlay work on Barrell Run, Wildwood Drive, Sawmill Lane; and to grade, roll, and pave the remainder of Tibbetts Road. It is estimated that the tax impact of this appropriation would be approximately \$0.23.

Article 18 requests funding (\$30,690) for the purchase of a utility truck for the Fire Department. The truck would be an F350 with a utility-style body for storage and transportation of equipment. The Fremont Firemen's Association is funding the costs (up to \$6,000) for new lights, a siren conversion, lettering, and other associated conversion costs. Those costs are not reflected in the warrant article. The entire sum of \$30,690 is to be withdrawn from the Fire Truck Capital Reserve Fund. The tax impact of this purchase would be zero.

Article 19 is the opportunity for the Budget Committee to make their report on the 2005 budget process and appropriations.

Article 20 is the total operating budget for the Town; the master budget article. This number is the sum total of all operating budgets, and excludes any special warrant articles. The full budget can be found on the State Form MS-7, which is printed on colored pages in the beginning of your Town Report.

The Department of Revenue Administration has made recommended changes in how this article is placed on the warrant, so you will notice that two appropriation numbers are

written into this article. The Budget Committee recommends \$2,013,167 and the Selectmen recommend \$2, 021,327. The difference in these operating budget numbers include that the Budget Committee did not recommend \$5,000 in the Highway Department operating budget, \$3,010 in the Fire Department budget, and \$150 in Cemeteries.

Following are some highlights of the major changes in the operating budgets:

All of the Town budgets have been kept virtually at the 2005 levels, and in many cases, reduced, in a concerted effort by Town Officials to reduce the impact on the tax rate.

Wages are budgeted with a 3% cost of living increase.

Executive: Includes increased hours of clerical help in the Town Clerk's Office; two additional hours per week in the Selectmen's Office; increases in the cost of publishing the newsletter; Election & Registration: Decreased due to only one election in 2005; Personnel Administration: Increase in insurance costs; increase in workers compensation premiums; Reappraisal of Property: The revaluation is slated to be complete by fall 2005, and assessing contract and new software will be fully in place (funded in 2004); Judicial & Legal: Decreased due to lowered costs in 2004; Zoning Board of Adjustment: Increased based on 2004 (dramatically increased) case load; Police Department: Includes cost of living and step wage increases; Solid Waste Collection: COL increase in the pickup contract; Solid Waste Disposal: Increased tonnage costs due to larger volume of MSW

Article 21 was requested by Shawn & Kim Senter of Fremont, who developed the Kingman Court Subdivision, located off of Whittier Drive in Fremont. The roadway known as Kingman Court is completed. It has been built to town specifications and inspected by the Town's Engineer and Road Agent to date. A two year maintenance bond in the amount of \$5,000 is required to be in place for the next two years as well. An affirmative vote makes Kingman Court a town-accepted roadway.

Article 22 was requested by Ingalls Lane Realty/Turner Porter of Exeter, who developed the Commerce Park / Tuck Woods subdivision located off of Karlin Road in Fremont (Commerce Drive in Brentwood). This includes only the roads in Phase I of the development, which have been through two winters. An agreement is in place between the developer and the Town to ensure that all final improvements are completed by the summer and a maintenance bond will remain in place for two years following completion. An affirmative vote makes these roads as described, town-accepted roadways.

Article 23 is the meeting's closure article, to see if there is any other business to be transacted that may legally come before the voters.

We hope this information is helpful to your understanding of the issues to be voted upon at the 2005 Annual Town Meeting. If you have specific questions in advance of the meeting on March 12, 2005 please feel free to call our office at 895-2226.

Fremont Board of Selectmen

TOWN OF FREMONT NH

2004 TOWN MEETING MINUTES

To the inhabitants of the Town of Fremont in the County of
Rockingham in said State, qualified to vote in Town Affairs:

FIRST SESSION FOR VOTING: TUESDAY MARCH 9, 2004 TO BE HELD AT THE FREMONT
SAFETY COMPLEX AT 425 MAIN STREET IN FREMONT
NEW HAMPSHIRE TIME: 8:00 AM to 7:00 PM

Raymond Bernier, Town Moderator, opened the first session of the 2004 Fremont Town Meeting at 8:00 am at the Fremont Safety Complex, 425 Main Street. The Town and School Warrants were read. Seven (7) absentee ballots that had been received by 1:00 pm were opened and signatures verified. No other absentee ballots were received by 5:00 pm. The polls closed at 7:00 pm and the counting of ballots commenced, with the aid of an Accu-Vote counting machine. Write-in votes were tallied by hand.

Voting totals included 2066 registered voters on the checklist and ten (10) new registrants on polling day. There were a total of 422 total votes; including seven (7) absentee ballots. The results of the election are as follows:

ARTICLE 1: To choose by ballot all necessary Town Officers for the ensuing year. Miscellaneous write-in votes are not reported here. A full election report, including every write-in, is available in the Town Clerk's Office. Write-ins of less than five votes are not accounted for here.

ARTICLE 2: Are you in favor of adding an **ARTICLE XVI** to the Fremont Zoning Ordinance read as follows:

XVI. ELDERLY HOUSING

A. Purpose:

The standards in this section have been established for the purpose of encouraging the construction of elderly housing developments (or the conversion of existing structures into elderly housing facilities), which are designed and constructed to meet the unique needs of elderly citizens, while ensuring compliance with local planning standards, land use policies, good building design, and the requirements for the health, safety and general welfare of the inhabitants of Fremont. Such developments shall not include assisted living and/or extended care facilities.

This ordinance has also been developed to incorporate open space development components for elderly housing projects. The Town of Fremont understands the importance of maintaining open space as a way of preserving rural character, protecting wildlife habitat and preserving important natural resource areas. In an effort to achieve these goals, this ordinance encourages the placement of elderly housing units in relatively compact areas within the development site in order to leave large undeveloped areas free of negative development impacts.

The Town of Fremont recognizes that one aspect of elderly housing development is that the housing built will continue to be put to this use in perpetuity, consistent with restrictive covenants and consistent with the provisions of state and federal law that permit housing units to be restricted by age.

This ordinance is also developed to allow mixed-use development to occur within the project. The standards herein allow service and retail facilities to be developed in conjunction with the creation of elderly housing. These mixed uses are allowed and encouraged because of their inherent connection to the needs of elderly residents and because such uses expand the feeling of community within the elderly development. This Ordinance is adopted pursuant to the provisions of RSA 674:21 (Innovative Land Use Controls), and the Planning Board is hereby empowered and authorized to administer this Ordinance in conjunction with the Selectmen and building officials of the Town of Fremont.

B. General Standards: All elderly housing developments shall conform to the following standards:

1. *Elderly housing developments shall be permitted as an overlay district thereby allowed anywhere throughout the Town of Fremont. All elderly housing developments shall occur on a parcel that is a minimum of 20 acres in size and shall have at least fifty feet (50') of frontage on a Class V road or higher.*
2. *The total number of elderly housing units approved or permitted by the Board under this ordinance in the Town of Fremont shall not exceed ten percent of the total dwelling units then permitted and existing under this ordinance in the Town of Fremont.*

(Explanatory note: The 2000 U.S. Census details 1,201 dwelling units in the Town of Fremont)

3. *The maximum number of bedrooms allowed on a site is three per acre of upland, and shall be calculated as follows:*
 - a) *Subtract very poorly and poorly drained soils, alluvial soils, and soils with slopes greater than twenty-five (25) % from the total parcel acreage.*
 - b) *Subtract 10% of the remaining land for roads and utilities.*
 - c) *Multiply the resultant acreage by three bedrooms to get the maximum number of bedrooms allowed on the site.*

The allowed number of units may be grouped or dispersed over the non-open space areas in any fashion within the limits imposed by this ordinance and existing septic system siting requirements.

If the development is located within the Aquifer Protection District the number of bedrooms allowed per acre of upland is two.

4. *Dwelling units shall be specifically designed to provide housing for elderly residents 55 years old or older. Units shall have a maximum of two bedrooms, may not exceed thirty-five feet (35') in height, and may be either one or two stories. Buildings shall be separated by a minimum space of thirty-five feet (35'). This spatial relationship may be required to be larger if Planning Board review finds that this standard results in inadequate light and air between structures. No building shall exceed more than six individual units per structure. No individual unit shall exceed 1,500 square feet of living space, and no single-family building shall exceed 1,500 square feet in living space.*
5. *Adequate on site space shall be provided for off-street parking for two vehicles per dwelling unit.*
6. *Building massing and style shall be distinctly residential in character, drawing on historical design elements that are consistent with rural New England architecture and which feature characteristics such as pitched roofs, clapboard or shingle siding, raised panel exterior doors and divided light windows. All such elderly housing developments shall be designed and constructed to compliment and harmonize with the surrounding areas, particularly with regard to the size and scale of the development and its prominence and visibility to the community generally and to surrounding neighborhoods in particular.*
7. *Except as provided for by this Elderly Housing ordinance, all such elderly housing developments shall comply in all respects with the Town of Fremont's Zoning Ordinance, Site Plan Review Regulations and/or Subdivision Regulations.*
8. *Dwelling units may be owner-occupied or rented. However, all permanent residents of all elderly housing units shall be at least 55 years of age.*
9. *The design and site layout of all such elderly housing developments shall compliment*

and harmonize with the rural character of the Town of Fremont, shall maximize the privacy of dwelling units and preserve the natural character of the land.

10. *All such elderly housing developments shall make provision for pedestrian access (including amenities such as benches, street and path lighting, sidewalks and crosswalks) within the development and, to the extent possible, to off-site community facilities.*
11. *Each development shall incorporate the construction of a common/community facility to be used for homeowners' association meetings or general community activities. This facility can be incorporated into one of the housing structures or it can be a stand-alone building. For developments of less than twenty dwelling units this community facility is encouraged but not required.*
12. *All such elderly housing developments shall be landscaped to enhance their compatibility with surrounding areas, with emphasis given to the utilization of natural features wherever possible. The Planning Board may require a plan developed by a landscape architect be prepared for each development.*
13. *The perimeter of the areas of housing or mixed use development within the site shall be treated with a landscaped buffer zone of a minimum of twenty-five feet (25') which may consist in whole or in part of existing natural grown vegetation.*
14. *The Planning Board shall require that all roads within the development -- whether owned privately or not -- be built according to Town standards.*
15. *The Planning Board retains the right to approve the specific road and structure layouts for the purpose of the health, safety, and welfare of the town as well as for efficiency and aesthetic variety and quality of design.*
16. *The applicant shall demonstrate that all units have been designed to meet the needs and accessibility requirements of the elderly as reflected in the HUD's Fair Housing Accessibility Guidelines.*

All units shall be built in accordance with applicable federal, state and local building codes.

C. *Common Land/Open Space.* *In every elderly housing development, common land/open space shall be set aside and covenanted to be maintained permanently as open space. The required amount of open space for all elderly housing developments shall be calculated as follows:*

1. *No less than 33% of the gross upland area of the development shall be allocated to open space. Upland area is defined as all soils with slopes less than twenty-five 25 %, and excludes poorly and very poorly drained soils, alluvial soils (subject to flooding), and water bodies. The Planning Board will review each proposal with an eye toward ensuring that the proposed common areas are contiguous, disapproving proposals that carve the open space into small segments that do not achieve the goals defined in the Purpose Section above. It is recommended that sixty (60) to eighty (80) percent of the*

common areas should be contiguous.

In calculating common/open space area the following shall not be included: public right-of-way, alluvial, very poorly and poorly drained soils, soils with slopes over 25%, and parking lots.

Use of Common Land: Such common land shall be restricted to open space recreational uses such as parks, swimming pools, tennis courts, golf courses, the common meeting facility (found in Section B 11 above), or conservation. While the setbacks, front, rear, and side, are considered part of the common land, none of the above uses shall be allowed within these areas, nor any other uses that would disturb the natural vegetation within these areas. 90% of the common/open space shall remain undisturbed. These restrictions of the use of the common land (including the landscaped buffered area) shall be stated in the covenants running with the land.

2. *Access to open space/common land. Such common land shall have suitable access via a trail, within the development.*
3. *Protection of Common Land. Open space, common areas, common facilities, private roadways, and other features within the elderly housing development shall be protected by covenants running with the land and shall be conveyed by the property owners to a homeowners association so as to guarantee the following:*
 - a) *The continued use of land for the intended purposes.*
 - b) *Continuity of proper maintenance for those portions of the development requiring maintenance.*
 - c) *The availability of funds required for such maintenance.*
 - d) *Recovery for loss sustained as a result of casualty, condemnation or otherwise.*
 - e) *Creation of a homeowners association or tenancy-in-common or similar form of ownership, with automatic membership and obligation of the residents of the elderly housing development upon conveyance of title or lease to single dwelling units. Homeowners association, tenancy-in-common, or similar form of ownership shall include lien provisions and shall be subject to review and approval by the Planning Board.*

- D. *It shall be the responsibility of the developer/builder of each such elderly housing development to establish a Home Owner's Association and to prepare and adopt appropriate Articles and By-Laws which are to be submitted in advance to the Planning Board and Town Counsel for their review and approval. In preparing the Articles and By-Laws, particular consideration shall be given to accommodating the unique needs of the elderly citizens and to ensuring that residents of such developments are guaranteed adequate and appropriate services. The creation of the Home Owner's Association and the Articles and By-Laws shall be at the sole expense of the developer/builder and the costs of the review by the Planning Board and Town Counsel shall also be born by the developer/builder. Any association formed for the purpose of elderly housing must have stipulated in their By-Laws and Declaration of Covenants that the Association will at all times be in compliance with current Fremont Ordinances governing elderly housing.*

The Applicant/Owner shall incorporate a written enforcement mechanism satisfactory to the Planning Board and its legal counsel whereby on an annual basis, a written age based census of

the existing Occupants shall be provided to the Board of Selectmen. Upon any change in ownership or tenancy, the age of any new Occupants shall be given to the Board of Selectmen within thirty (30) days of tenancy/ownership changes.

E. *Mixed Use Component*

Each elderly housing development is encouraged to incorporate retail and /or service facilities. All proposals must comply with the Site Plan Review Regulations of the Town of Fremont as well as building design criteria found in this Ordinance.

F. *The Planning Board shall maintain and exercise the authority to approve or disapprove all proposed elderly housing developments. The Planning Board shall act reasonably in exercising such discretionary authority but shall take into consideration such factors, for example, as: the health, safety and general welfare of the citizens of Fremont; the aesthetic impact on immediately surrounding areas; whether the design is adequate to meet the unique needs of elderly residents; whether the Articles and By-Laws operate to serve the unique needs of elderly residents; the burdens created by additional demands on Town services; and whether the proposed development complies with the requirements of this Elderly Housing Ordinance, as well as, with the requirement of Fremont's Zoning Ordinance and Subdivision and Site Plan Regulations.*

G. *Residency restrictions for residential projects approved under the Elderly Housing Ordinance shall be accomplished by restrictions recorded in deeds, Condominium Declarations, and/or other documents recorded at the Rockingham County Registry of Deeds. All deeds and covenants shall be subject to review by Town Counsel at the sole expense of the developer/builder, and shall be approved by the Planning Board. Covenants shall expressly provide that they may be specifically enforced by the Town, whether by injunctive relief or otherwise. Covenants shall be signed by the Planning Board, and shall contain language specifying that Board approval is required for any subsequent changes to the covenants. Covenants shall expressly provide that they shall not be amended or modified, nor waivers granted there under, without the prior written approval of the Planning Board.*

H. *The following terms shall have the following meanings for the purpose of interpreting these Elderly Housing Regulations:*

1. *Elderly Housing Development: Housing contained in a development intended for occupancy by people 55 years of age and older, and which features predominantly small single family units, apartments and/or condominiums.*

2. *Bedroom: a room with an interior door and a closet.*

I. *This ordinance shall be reviewed annually by the Planning Board to ascertain whether the balance between the number of standard residential dwelling units and elderly housing units continues to reflect the stated goals of the Fremont Master Plan and the community's long-term planning intentions.*

ARTICLE 3: Are you in favor of amending ARTICLE IV Section 2 of the Fremont Zoning Ordinance to read as follows:

Every building lot shall have a minimum contiguous lot frontage on Federal, State and Town highways of two hundred (200) feet provided that where lots are located on the exterior side of a curving street the minimum road frontage shall be no less than one hundred (100) contiguous feet, provided that the average width of the lot measured across its center shall be two hundred (200) feet. Building lots on which multiple family dwellings are located shall have an additional frontage of twenty (20) feet per family unit when less than five (5) family units and forty (40) feet per family unit when five (5) or more family units are considered. i.e.: (200 plus 20 multiplied by the number of family units) or (200 plus 40 multiplied by the number of family units). No lot line shall be less than one hundred (100) feet and each lot shall have no less than four (4) lot lines.

**SECOND SESSION: SATURDAY MARCH 13, 2004 TO BE HELD AT THE ELLIS SCHOOL
AT 432 MAIN STREET IN FREMONT NEW HAMPSHIRE
TIME: 5:00 PM**

Raymond Bernier, Moderator, called the meeting to order at 5:00 pm and reminded voters to register with the Supervisors of the Checklist. Mr Bernier requested a show of hands of non-voters. This included Heidi Carlson, Dave Hersom from the Rockingham News, Greg Lowell from Chester NH, and a Fremont resident not yet registered to vote. There were approximately 250 people in the audience.

The Board of Selectmen presented the Town of Fremont 2003 Appreciation Award to Philip Peterson for his contributions to the Town of Fremont. Peterson was presented a plaque, certificate of appreciation, and a hat with the town seal on it.

Selectman Gene Cordes presented a plaque and hat to Richard Clark who has just completed his sixth year on the Board and is temporarily moving from Fremont.

Newly elected Selectman Peter Bolduc was introduced by Moderator Bernier. Bolduc then led the audience in the Pledge of Allegiance.

Seated at the head table were Town Clerk Lori Holmes; Selectmen Gene Cordes and Richard Clark, and Selectman-elect Peter Bolduc; Town Counsel John Ryan; and Town Administrator Heidi Carlson.

Moderator Bernier read aloud the results of the first session of voting (articles 1 through 11), held on Tuesday March 9, 2004. He also read through the School District voting results.

ARTICLE 12: By Petition: To see if the Town will vote to raise and appropriate the sum of up to four million dollars (\$4,000,000) for the purchase of land or other property interests therein to protect the Town's rural character and natural resources by conserving land; further to authorize the issuance of not more than four million dollars (\$4,000,000) in bonds and/or notes in accordance with the provisions of the Municipal Finance Act (NH RSA 33) and to authorize the Selectmen to issue and negotiate such bonds and/or notes and to determine the rates of interest thereon and the maturity and other terms thereof. Said bonds/notes will be issued on an as needed basis, to acquire easements or open space on parcels as recommended by the Conservation Commission, with the approval of the Board of Selectmen in accordance with the provisions of RSA 36-A:4. The Selectmen and Budget Committee recommend this appropriation. (2/3 ballot vote required.)

Moderator Bernier clarified that in order to speak, one must use the microphone, and all questions and answers are to be directed through the Moderator. Each person will be allowed three minutes at the microphone. Everyone will be allowed to speak once before anyone speaks a second time on the same issue.

Gene Cordes moved the question. Rick Clark seconded. Gene Cordes gave a brief introduction of the Open Space Committee, indicating that the group had been formed last fall at the suggesting of the Fremont Conservation Commission. The purpose of the article is to

preserve open space. The Open Space Committee has brought forward this proposal following the past four months of work and research.

Janice O'Brien introduced herself as a Co-Chair of the Open Space Committee. All other attending members of the Open Space Committee stood so that they could be identified. O'Brien explained about open space and indicated if this article was passed in Fremont, that it would allow funding to be available for future purchases of land or easements on land for protection of open space.

Open Space Committee Member Kenn Jones then presented information about open space and why it makes sense for Fremont, by protecting the land and resources in town. It also provides opportunities for current landowners to do something with their land aside from sell it to developers. It also, in the long run, he said, will save money for taxpayers.

He discussed the track of development in Fremont, including a 62% increase in population since 1990. He highlighted that this increases demand on resources, water, and land. Protection of land would help to foster wildlife as well.

He then described what a conservation easement is and what it would mean to a landowner. An easement would be sold to the Town, allowing the owner to still maintain their home or farm (whatever they currently do with their property); but would ban the landowner from subdividing or commercially developing the land.

He then described the process the Open Space Committee would go through, to see what properties are available, and eligible for protection. From there, the proposals go to the Conservation Commission, further to the Selectmen, further to a public hearing process; all prior to any decision being made on purchase of land or easements and any funds being disbursed.

Greg Lowell from the Chester Conservation Commission spoke about this same process happening in Chester NH. A \$3,000,000 bond for 10 years was passed in Chester which has resulted in them being able to purchase easement rights on 10 parcels, accepted 2 donated parcels; and purchase the old Silver Sands Campground on Route 102.

They figure that this is saving the town \$300,000 to 500,000 per year, figuring that there would have been 170 homes on these protected acres.

Bob Dodge then spoke as Fremont's State Representative. He mentioned the LCHIP program and funding, and further expressed his thoughts about capitalism and said that when land was purchased for easement, it is removed from the tax rolls. He said he did not feel the Town should be in the real estate business, though told voters they could vote however they wanted.

Brian Royer then spoke about the efforts of the Open Space Committee, supporting those efforts but disagreeing with the Town becoming involved in the real estate business.

Bob Larson discussed the efforts the Planning Board undertook several years ago to address growth and development. He stated he thought this would be in the best long-term interest of Fremont.

Janice O'Brien said that the Committee is looking primarily at purchasing easements, not land outright. She said that the Town would not be the easement holder in most cases, it would likely be another Conservation agency, such as the Rockingham Land Trust, or the Society for Protection of NH Forests.

The Moderator then recognized Election workers Ruth Anderson, Sandra Roy, Roberta Stevens, Lori Holmes, Matthew Thomas, Barbara Baker, and Ann Stackpole; and thanked them for their time and efforts on Tuesday.

Barbara Benham asked about the tax savings realized in Chester, and Mr Lowell addressed this question by talking about the savings on the 170 homes that were not built.

Matthew Thomas then "corrected" Bob Dodge by indicating that Fremont is the 3rd fastest growing town of the 37 in Rockingham County; and 50th in 258 communities in New Hampshire. Thomas indicated that LCHIP funds are not as readily available as they once were. He said that when looking at the past history of Fremont's school budget, it is clear to see that growth does cost.

Bob Dodge spoke again about bond issues and debt service.

Michael DiCroce said that any easements purchased would affect Fremont forever. He discussed the long-term effects, and indicated that years from now the Town might rather decide that industrial development would be better.

Audrey Karamourtopoulos questioned whether it would be better to purchase land outright versus buy an easement. She discussed the political issues surrounding purchasing land. She then asked some about questions about Fremont demographics, indicating that what is being presented tonight is different than that presented last week at the School District Meeting by the Demographer.

John Whiteside then discussed the issue and both sides, and the perspectives that have been offered this evening. He asked people to focus on the future of the Town.

Andy Kohlhofer talked about property values, indicating that he felt that over time if development slowed, that property values would plateau or decline. He felt that it was desirable for people to move to Fremont, and discussed supply and demand.

Joe Delahunty discussed the zoning options which are open to the Town, to help slow growth, such as increasing setbacks from wetlands, or increasing the minimum lot size.

Kenn Jones addressed some of the questions that had been asked. He said that if easements are obtained, the land will be valued at current use values (for tax purposes) and is not totally removed from the tax base.

Peg Pinkham clarified that last week the \$2.3 million addition was passed within the School District Meeting, but no \$10 million request would be coming forward next year from the School Board. She also clarified that the demographic study indicates that on average, for every two houses built, one child enters the school system.

Janice O'Brien discussed elderly housing developments and felt that it did not solve the problem in terms of taxes given who moves into these developments. She said the issue is about the type of environment you want to live in and what you want Fremont to be like. She said this is only one tool to use to shape the environment and quality of life that is Fremont.

Matthew Thomas explored the zoning options discussed by Joe Delahunty, indicating that the ZBA was available to approve variances to the setbacks. He asked people to look at other industry towns like Derry, Plaistow, and Raymond, indicating they have commercial development but still have tax rates as high or higher than Fremont.

Open Space Committee Member Eric Feldborg discussed grants and matching funds which are needed to help offset the costs. The town needs some money available to be able to access matching funds. He further talked about what rights the owner maintains when giving an easement. He said this provides more options for landowners and for the Town, to preserve open space.

Gene Cordes indicated that Growth Control Ordinances are not something that have been helpful in the Town's "tool box." He indicated that changing setbacks and lot sizing requirements have to be defensible and reasonable in their implementation.

Cordes then indicated that the group had been discussing this for over an hour, and asked to call the question. Richard Clark seconded. The vote was approved by voice vote to call the question.

At 6:20 pm Moderator Bernier indicated that voting would now commence on Article 12, and would be open until 7:20 pm. He said after one half hour, after people have had the opportunity to vote, that the meeting would resume.

At 6:50 pm Moderator Bernier called the meeting back to order, indicating again that polls would remain open until 7:20 pm.

ARTICLE 13: To see if the Town will vote to raise and appropriate the sum of one hundred fifty thousand dollars (\$150,000) for a complete revaluation and purchase of the associated computer hardware and software and authorize the withdrawal of ninety-eight thousand dollars (\$98,000) from the Capital Reserve Fund created for that purpose. The balance to come from general taxation. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

Gene Cordes moved the question. Peter Bolduc seconded. Gene Cordes spoke to this article. He indicated that the Town was last revaluated in 1988; and as part of the State initiative for the school education tax, certification by the NH Department of Revenue must be done every five years, which is April 1, 2005 for Fremont.

Gene Cordes called the question. Peter Bolduc seconded. **Article 13 passed by voice vote.**

Gusti Buhrman moved to restrict reconsideration on Article 13. Gene Cordes seconded. **The vote passed by voice vote.**

ARTICLE 14: To see if the Town will vote to raise and appropriate the sum of fifty-three thousand dollars (\$53,000) to be placed in existing Capital Reserve Funds for the following purposes. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

- | | |
|---|--|
| a. Police Cruiser \$10,000 | b. Radio Communication Equipment \$5,000 |
| c. Emergency Management Vehicle \$3,000 | d. Fire Truck \$12,500 |
| e. Highway Building \$15,000 | f. Highway Equipment \$7,500 |

Gene Cordes moved the article. Peter Bolduc seconded. **Article 14 passed by voice vote.**

ARTICLE 15: To see if the Town will vote to establish a Capital Reserve Fund under the provisions of RSA 35:1 for the purpose of playground equipment and construction at the Town's Memorial Ballfield Park; and to raise and appropriate the sum of five thousand (\$5,000) to be placed in this fund. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

Gene Cordes moved the article. Richard Clark seconded. **Article 15 passed by voice vote.**

ARTICLE 16: To see if the Town will vote to raise and appropriate the sum of eight hundred fifty-nine dollars (\$859) for the purchase of a Type 2 OSHA Sound Level Meter and Calibrator and to authorize the withdrawal of eight hundred fifty-nine dollars (\$859) from the Police Department OHRV Equipment Special Revenue Fund for said purchase. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

Gene Cordes moved the article. Richard Clark seconded. Chief Janvrin explained that the equipment would be purchased from the existing special revenue fund. He further explained that this equipment would measure decibels of OHRV's in response to noise complaints.

Article 16 passed by voice vote.

ARTICLE 17: To see if the Town will vote to raise and appropriate the sum of fifty-three thousand four hundred eighty-three dollars (\$53,483) to grade, roll, gravel, pave, and do finish shoulder work on Pine Street, Pigeon Lane, Bruce Avenue, Riverside Drive, Shady Lane, Beach Street. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

Peter Bolduc moved the article. Richard Clark seconded. **Article 17 passed by voice vote.**

ARTICLE 18: To see if the Town will vote to raise and appropriate the sum of seventeen thousand dollars (\$17,000) to reprint in hard cover, the Town History of Fremont book. All revenues from the sale of said book will be returned to the Town of Fremont. The Selectmen and the Budget Committee recommend this appropriation. (Majority vote required.)

Peter Bolduc moved the article. Richard Clark seconded. Matthew Thomas spoke about this article, indicating that in 1998 the *Town History of Fremont* had been published. The 600 copies purchased sold out in 2 ½ years. He said that the cost of the hardcover book would be between \$35 and \$40 and that all revenues will be returned to the Town. Thomas will be adding more information and vital statistics (1807 through 1870's); and other data for the years since the

original publication. Thomas stated that 500 copies will be printed. **Article 18 passed by voice vote.**

ARTICLE 19: By Petition: To see if the Town will vote to raise and appropriate the sum of thirteen thousand six hundred twenty-two dollars (\$13,622.00) to purchase a Kustom Signal Speed Monitoring Trailer. This purchase to be offset by a NH Highway grant of six thousand dollars (\$6,000). The Selectmen and the Budget Committee do not recommend this appropriation. (Majority vote required.)

Peter Bolduc moved the article. Richard Clark seconded. Chief Janvrin spoke about the article, indicating he had brought this article forward because he was approached by a group of residents asking why Fremont did not have one of these signs. Janvrin discussed the benefits of having such a trailer, in terms of community awareness. **Article 19 defeated by voice vote.**

Moderator Bernier then explained that Selectmen had asked to put Articles 20 and 22 together. Cordes moved to handle Article 21 prior to 20 and 22. Richard Clark seconded. **Handling of Article 21 prior to 20 and 22 passed by voice vote.**

ARTICLE 21: To see if the Town will vote to raise and appropriate the sum of one thousand eighty dollars (\$1,080) in support of the Home Health & Hospice Care Agency in Nashua NH. The Selectmen and Budget committee do not recommend this appropriation. (Majority vote required.)

Peter Bolduc moved the question. Richard Clark seconded. **Article 21 defeated by voice vote.**

ARTICLE 20: To hear the report of the Budget Committee and take any action the Town deems necessary.

ARTICLE 22: To see what sum of money the Town will vote to raise and appropriate for general municipal operations, exclusive of all other warrant articles already voted. The Budget Committee recommends two million seventy-one thousand five hundred thirty-four dollars (\$2,071,534) and the Board of Selectmen recommends two million one hundred sixteen thousand four hundred eight dollars (\$2,116,408.00). (Majority vote required.)

Thom Roy moved to appropriate the sum of \$2,071,534. Richard Clark seconded. Roy explained the Budget Committee's recommendation and what had been removed from the Selectmen's budget. The items not recommended by the Budget Committee included \$30,000 for repairs at the Sandown Road Bridge; and \$14,874 for Parks & Recreation Field Maintenance. Roy also indicated that passage of all articles here tonight represented approximately 70 cents on the municipal portion of the tax rate.

Kevin Zukas asked what work was planned for the Sandown Road Bridge. Gene Cordes explained that it was to repair a rock dislodged from the headwall.

Gusti Buhrman moved to amend the budget by increasing it by \$30,000 for the bridge repairs, to a total of \$2,101,534. Peg Pinkham seconded the motion. There was no further discussion on the amendment.

The vote to amend Article 22 to the sum of the operating budget to \$2,101,534 was too close to call by voice vote. Moderator then called for a card vote on whether to amend Article 22. **YES - 72 NO - 65. Passed by card vote to amend Article 22 to \$2,101,534.**

At 7:20 pm Moderator Bernier announced that the polls were now closed for ballot voting on Article 12.

Breeda Royer had questions regarding the operating budgets, and increases from 2003 to 2004. She specifically questioned the Executive and Personnel Administration lines. Selectmen asked Heidi Carlson to speak to these questions.

Moderator Bernier explained that Carlson was the Selectmen's Administrator and would address the budget questions, though not a Fremont resident. Meredith Bolduc called a point of order indicating that Carlson was not a resident. The Moderator explained again Carlson's position and asked for a vote of the body on whether to allow Carlson to speak. Gusti Burhman called a point of order that the Moderator can designate any person to speak, and it does not have to be a vote of the body. The Moderator called for a vote and it was substantially in favor of allowing Carlson to speak.

Heidi Carlson explained each line item difference in the Executive Budget and answered a further question from Royer about whether there was a new position in that budget. Carlson explained that the one personnel change was a new clerical position in the Town Clerk's office for six (6) hours per week.

Carlson then explained the line items in the Personnel Administration budget, indicating that there was a new full-time highway labor position within this budget, budgeted for 3/4 of the year of full-time benefits. There were also three employees who changed health insurance from single to family; and increased insurance costs. There is also a large increase in workers compensation insurance due to subcontractors who do not carry it.

Breeda Royer then moved to reduce the budget by the amount of money for the full-time highway department position. Andy Kohlhofer seconded the motion to amend. Carlson sat to calculate these amounts at Mrs Royer's request.

Carlson indicated that the amount to remove the full-time status and benefits was \$25,083; and included \$12,603 in the benefits package; and \$12,480 in wages (difference between current part-time staffing and 40 hours per week).

Breeda Royer then moved to reduce the operating budget by \$25,083 to get to an operating budget figure of \$2,076,451. Andy Kohlhofer seconded.

Gusti Burhman questioned whether this vote was intended to dictate whether or not the position was removed.

Mrs Royer said her intent was to remove the money from the budget for this position.

Gusti Burhman went on to say that the Selectmen have authority over the bottom line of the budget.

Attorney Ryan clarified that unless a line item position was taken on every budget, a vote at Town Meeting was not binding for a specific item. The Selectmen have control of the bottom line of the budget.

Chairman Cordes indicated that if it was the will of this body, that the Selectmen would follow that indication in good faith. Yvonne Ouellette asked what the position was, and what happens if it is not filled. Gene Cordes explained that the position is currently filled part-time and is a highway laborer and equipment operator. He described some of the duties this person would do if hired on a full-time basis, including road and brush maintenance, filling potholes, installing signs, snow plowing, and other general highway work.

Gusti Buhrman called the question. Gene Cordes seconded. **The vote to amend the budget to \$2,076,451 was defeated by voice vote.**

Moderator Bernier explained that we were back to voting on the amended Article 22 in the amount of \$2,101,534.

Gene Cordes called the question. Lori Holmes seconded. **Article 22 as amended to \$2,101,534 was passed by voice vote.**

Gene Cordes moved to restrict reconsideration of Articles 14, 15, 16, 17, 18, 19, 20, 21, and 22. Richard Clark seconded. **The motion to restrict reconsideration on Articles 14, 15, 16, 17, 18, 19, 20, 21, and 22 passed by voice vote.**

ARTICLE 23: To see if the Town will vote to adopt the provisions of RSA 72:35, I-a for an optional veterans tax credit of \$2,000 for service-connected total disability on residential property and replace the standard tax credit in its entirety. The Selectmen recommend this article. (Majority vote required.)

Peter Bolduc moved the article. Richard Clark seconded. **Article 23 passed by voice vote.**

ARTICLE 24: To see if the Town will vote to adopt the provisions of RSA 72:28 II and IV for an optional veterans tax credit of \$250 on residential property and replace the standard tax credit in its entirety. The Selectmen recommend this article. (Majority vote required.)

Peter Bolduc moved the article. Gene Cordes seconded. **Article 24 passed by voice vote.**

Mary Anderson called for the results of Article 12. Moderator Bernier read the count for Article 12. He indicated that there were 256 ballots cast and that a 2/3 majority would require 170 yes votes. **YES - 164 NO - 90 Article 12 defeated by ballot vote.**

Breeda Royer moved to restrict reconsideration of Article 12. David Brown seconded. As a point of order Gusti Burhman stated that this was part of the statue on a bond issue, and it could not be reconsidered at this meeting. No vote was taken.

ARTICLE 25: To see if the Town will vote to change the purpose of the previously designated Snow Plow Capital Reserve Fund to the Highway Equipment Capital Reserve Fund. (2/3 vote required.) The Selectmen recommend this article.

Gene Cordes moved the article. Richard Clark seconded. **The voice vote was overwhelming in favor and declared passed by a 2/3 vote by the Moderator.**

ARTICLE 26: To see if the Town will vote to accept deeded title to 2,500 feet of Brown Brook Circle as designated on Plan # D-29087 from Dean C Howard of Howard Construction, with a two year maintenance bond to be held by the Town in the amount of \$5,000; upon satisfactory installation of the final course of paving; and satisfactory inspections by the Road Agent and Town Engineer following the final paving. (Majority vote required.)

Gene Cordes moved the article. Peter Bolduc seconded. **Article 26 passed by voice vote.**

ARTICLE 27: To transact any other business that may legally come before this meeting.

Mary Anderson asked for recognition for Judy Peterson and Thom Roy, neither of who ran for the Budget Committee this year, but who have both served in the position for many years. Both stood and received a round of applause as thanks for their work.

Mary Anderson also indicated to the body what the anticipated increases are in the tax rate, from the School District Meeting last week, and from this meeting. She estimated the increase between \$5.00 and \$7.00 per thousand. She said that she would have a police officer on duty during the fall tax collection season, and wanted a letter to be sent out by the Selectmen to notify the taxpayers who are not here this evening of the impending increases. A notice can be placed in the town Newsletter, but Anderson said that there are several non-resident taxpayers as well who should be sent a letter.

Hector Erinna came to the microphone and said he wanted to discuss changes to Article 24. He said that he would like to see the amount increased incrementally over the next three years to get to a total of a \$500 credit at the end of that time. Hector Erinna moved to reconsider Article 24. Gene Cordes seconded the motion. Mr Erinna said that Veterans are a special breed of people and said after their war-time service they returned to be policemen, firemen, and a host of other workers in their communities. He said he felt they deserved to get to the limit of the credit as recently allowed by the Legislature.

Yvonne Ouellette asked why not just increase the credit to \$500 now. Erinna said that he wanted to cushion the tax impact of the change over a three year time span. There was more general discussion about the article, including an explanation by Heidi Carlson of the statutory changes that happened this year, allowing the regular veteran's credit to be anywhere in the range of \$100 to \$500 per eligible veteran.

Kyle Murdock moved to amend the Article 24 for the Veteran's Credit to \$500. Yvonne Ouellette seconded. **The vote to amend Article 24 passed by voice vote.**

At 8:35 pm Gene Cordes moved to adjourn the meeting. Lori Holmes seconded. **The vote was unanimously approved.**

Respectfully submitted,

Lori A Holmes, Town Clerk

/hlc

INDEPENDENT AUDITOR'S COMMUNICATION OF REPORTABLE CONDITIONS AND OTHER MATTERS

To the Members of The Board of Selectmen
Town of Fremont, New Hampshire
Fremont, New Hampshire

In planning and performing our audit of the Town of Fremont, New Hampshire for the years ended December 31, 2003, we considered the Town's internal control structure in order to determine the scope of our auditing procedures for the purpose of expressing our opinion on the financial statements. Our review of these systems was not intended to provide assurance on the internal control structure and should not be relied on for that purpose.

Under the standards established by the American Institute of Certified Public Accountants, reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control structure that, in our judgment, could adversely affect the Town's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. A material weakness is a reportable condition in which the design or operation of one or more of the internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities, in amounts that would be material in relation to the financial statements being audited, may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might constitute reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above.

Our audit disclosed no matters that were considered material weaknesses as defined above. Minor weaknesses or other considerations coming to our attention were generally procedural in nature and dealt with administrative or record keeping practices. In these instances, we made specific recommendations or provided instruction to those individuals involved during the course of our audit fieldwork. Areas of opportunity for further consideration include:

- Continued development of accounting systems and preparations for the implementation of GASB #34 financial reporting requirements – FY2004

This report is intended solely for the information and use of management and others within the administration. This restriction is not intended to limit distribution of this report, which is a matter of public record.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL PRESENTATION

To the Members of the Board of Selectmen
Town of Fremont, New Hampshire
Fremont, New Hampshire

We have audited the accompanying general-purpose financial statements of the Town of Fremont, New Hampshire as of and for the year ended December 31, 2003 as listed in the Table of Contents. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance auditing standards that are generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

The general-purpose financial statements referred to above do not include the general fixed assets account group that should be included in order to conform with generally accepted accounting principles. As is the case with most municipal entities in the State of New Hampshire, the Town of Fremont, New Hampshire has not maintained historical cost records of its fixed assets. The amount that should be recorded in the general fixed assets account group is not known.

In our opinion, except for the effect on the financial statements of the omission described in the preceding paragraph, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Town of Fremont, New Hampshire, as of December 31, 2003, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our audit was made for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The combining and individual fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements of the Town of Fremont, New Hampshire. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general-purpose financial statements taken as a whole.

The Fisher's Boy Stanza 1

*"Any man more right than his neighbors, constitutes a majority
of one."*

~ Henry David Thoreau ~ *The Duty of Civil Disobedience* ~

REPORT OF THE BUDGET COMMITTEE

Budget Committee members, Department Heads, Town Administrator and the Office of Selectmen reviewed each component of the Town's budget rationale at regularly scheduled weekly meetings starting in early November. The initial school budget was received in December with reviews held during scheduled meetings in January. The Budget Committee held its public hearing for deliberation on the budgets on February 1st and 3rd.

Town: The Budget Committee's fundamental objective with respect to the 2005 Town Budget was to level fund at the department and aggregate levels. Particular attention to operational efficiencies was the common thread during the review process and therefore impacted budgetary recommendation decisions. Present and future fiscal responsibility with regard to discretionary spending was the framework in which the Committee reviewed each department and account request in order to minimize tax impacts.

The proposed 2005 Town operating budget as supported by the Budget Committee is \$2,013,167. This operating budget is approximately 7.2% less than the 2004 operating budget. The Budget Committee recommended appropriation is within 1% (-\$8,160) of the Selectmen's recommendation equal to \$2,021,327.

The Budget Committee did not vote to recommend warrant article 10, the appropriation of \$1,000,000 for the purchase of land or other property interests. The Committee held a general concern with regard to the overall purchasing strategy and usage of the land purchasing rating tool. The rating tool did not appear to utilize a defined threshold or maintain a maturity level ready for implementation. The Budget Committee and Selectmen did vote to recommend article 9, the purchase of the Glen Oaks property in the amount of \$900,000.

The proposed budget for the Town as supported by the Budget Committee is \$3,098,856 inclusive of supported warrant articles. This appropriation is \$1,025,660 less than the appropriations recommended by the Selectmen. The variance is primarily due to the Selectmen's recommendation to raise and appropriate the sum of \$1,000,000 for purchases of land or other property interests. The overall net Town Budget tax impact as recommended by the Budget Committee, when adjusted for asset growth, will likely be a decrease of \$0.50 – 0.55 in 2005 (this estimate is without consideration of the projected increase in Assessed Value from the revaluation).

School: The Budget Committee's principal goal was to establish an appropriate balance amid educational efficacy and fiscal responsibility within the context of Fremont economic demographics and feasibility of town's people to absorb increased tax burden.

The total operating budget for the School as proposed by the Budget Committee is \$7,711,075. This appropriation reflects a \$592,529 increase over the 2004-2005

budget. The recommended 2005-2006 operating budget is approximately 2% less than the School Board recommendation equal to \$7,853,074. The minimal variance is to a great extent due to the open lines of communication and collective teamwork among the Budget Committee and School Board members.

The Budget Committee reductions to the operating budget as proposed by the School Board were in the following functional areas: Regular Education - substitutes, computer repairs and supplies founded on historical spending trends; Improvement of Instruction – Curriculum Director based on the committee's desire for the School to evaluate potential capabilities and efficiencies within the existing administrative staff and improved utilization of existing tools and processes as they relate to curriculum; Student Transportation - Curricular Transport ascertained on historical spending trends and lack of justification pertaining to the proposed increase; Facilities – Modular Lease directly attributed to the unanimous recommendation to purchase the Modular units.

Derived from the aforementioned operating expenditures increase and total revenue increase in the amount of \$257,327, driven by unreserved fund balance and impact fees, the overall net School Budget tax impact as recommended by the Budget Committee, when adjusted for asset growth, will likely be an increase of \$1.52 – 1.57.

Respectfully submitted,

Members of the Fremont Budget Committee

Charles Kimball – Chairman

Marc Wood – Co-Chair

Joe Delahunty

Audrey Karamourtopoulos

Mike Miller

Andrew Kohlhofer

Donald Gates – Selectman Representative

Peg Pinkham – School Board Representative

"I am proud to say this generation is rising to the challenges it inherited from us. Today, in places far from American soil, men and women, representing every race, religion and creed of this diverse American melting pot, willingly don an American military uniform and defend this country. They come from all walks of life, from every corner of this great land of ours. They are our fathers, our sons, our mothers and our daughters – our friends, and our neighbors. They are all ordinary people – who are asked to make extraordinary sacrifices in extraordinary times, for their country. They answer her call to arms, not because they love war. For as I have said, nothing is more repulsive to the character of a soldier than war for war's sake. They answer her call for a higher purpose – to preserve the ideals of liberty, justice, equality, and the right to live in a world free from tyranny.

~ Colonel Gary Stanley ~ Speaking at Memorial Day Services in Fremont, 30 May 2004

REPORT OF THE BUILDING /CODE ENFORCEMENT DEPARTMENT

I would like to take this opportunity to introduce myself as the new Building Official and Code Enforcement Officer for Fremont – effective January 3, 2005. Many people in town already know us - my wife Sandra and I have been residents of town since the late 70's. Both of our daughters, Zena and Elka were raised here in Fremont and attended Ellis School. I have been active in town since the mid 1980s; having been a member of the Planning Board, Zoning Board of Adjustment, Trustee of Trust Funds, and Budget Committee. I also am a volunteer member and Assistant Chief of our Fire Department.

Taking on this role presents a whole new set of challenges for me – all of which I am looking enthusiastically towards. Many of the builders, contractors, and trade professionals and members of the community are being especially helpful and I look forward to working effectively with each of you.

We all know “change comes” and being able to influence that change will be key to Fremont's ability to maintain its' town character. The building activity rate over the last few years has been on the rise and with the significant subdivision proposals and site plan review requests pending that rate will remain quite intense throughout 2005.

If anyone ever has any concerns or comments – or simply would like to ask a question – please do not hesitate to contact me. The building inspector's phone number is 895-2226 x17 or visit the web site at <http://fremont.nh.gov>

Reporting for activities for year 2004

Two-Family Units	5		
Multi-Family Units	1 four unit; 1 six unit		
Commercial – Auto Body	1		

Respectfully,

Thom Roy
Building Official/Code Enforcement

REPORT OF THE CONSERVATION COMMISSION

Over the past year the Conservation Commission has increased efforts to enhance communication and cooperation with the other Land Use Boards and the Board of Selectmen. The Commission plans to continue this effort over the coming year. By increasing communication, the Planning Board and Conservation Commission have been able to attend joint site walks to view proposed development projects and had a joint meeting to provide education on how to most effectively evaluate a project that has wetland impacts. In addition, the Commission is making a commitment for at least one member of the Commission to attend Planning Board meetings to ensure information is flowing between the boards and to explain any recommendations that are made by the Commission on projects that have wetland impacts. Our goal is for the boards to work together to conserve and protect Fremont's natural resources as well as fairly and consistently deal with development needs and pressures in the town.

One of the current projects of the Commission that is noteworthy is the effort to develop a Natural Resources Inventory. The Commission received a grant last year for a member of the Rockingham Planning Commission, Theresa Walker, to work with us on a project. The Commission has chosen to have Ms. Walker assist in developing a Natural Resources Inventory for Fremont. The Inventory is based on the Natural Resources maps that were developed for the town last year. When this is complete, the information will be available to the Town and the public for reference and for use in updating the Master Plan.

The Commission is also continuing its efforts to conserve open space. In order to effectively address the day-to-day business of reviewing applications for dredge and fill permits and special exceptions, as well as increase other conservation efforts, the Commission has increased from one meeting per month to two. The second meeting is a work session that allows the Commission the opportunity to discuss conservation projects. This schedule has been working well and we plan to continue this indefinitely. As more land is conserved and easements are granted the Commission will be devoting time to developing monitoring and/or management plans to ensure the land that has been protected remains protected.

In the year to come, the Commission's efforts to conserve open space will continue to include working with developers to put conservation easements on open space as well as working with the Open Space Advisory Committee and other Town Boards to raise funds to purchase land and/or easements in the future. Several members of the Commission are also actively involved on the Open Space Advisory Committee, which is currently working on a very important land purchase proposal that will be before the residents of Fremont at our annual Town Meeting. This details and current status are outlined below in the submission from the Open Space Advisory Committee. Commission members have also spent much time and energy researching and applying for grants for matching funds in the event the bond article passes in March.

OPEN SPACE ADVISORY COMMITTEE

This year has been most productive for the Open Space Advisory Committee. The result of the 2004 vote for a \$4 million open space bond being so close, just 6 votes short of the required 2/3 majority needed to pass, told us that people were interested in preserving land for future generations.

In April we resumed our meetings and began to formulate a plan for 2005. Shortly thereafter, we became aware of a landowner who was interested in preserving a large parcel of land abutting Spruce Swamp. The landowner, along with a representative of the Society for Protection of New Hampshire Forests (SPNHF) met with the Committee and the Conservation Commission to discuss a proposal whereby the landowner would be willing to sell an option to the Town that would hold the 338 acre parcel until the 2005 Town Meeting. In order to accomplish this goal, it was necessary to raise a \$45,000 deposit. SPNHF donated \$15,000, the Conservation Commission donated \$15,000 and the remaining \$15,000 was donated by interested citizens of the town. This became known as the Glen Oakes Project.

An appraisal done by a Certified Appraiser determined that the value of the land as of May 2004 was \$1.3 million. The landowner has offered to sell to the Town for a bargain price of \$900,000. Three hundred thirteen (313) acres will be sold to the Town, with a conservation easement over an additional 25 acres. The Town will own the 313 acres and in turn will grant a conservation easement to SPNHF, which will preserve the land as open space in perpetuity.

In late fall and early winter site walks were offered to interested citizens giving everyone the opportunity to see the land first hand. These walks were led by Phil Auger of UNH Cooperative Extension and Dave Anderson of SPNHF respectively and were well attended.

In addition to working on the Glen Oakes Project, we have spent time working closely with UNH Cooperative Extension refining the criteria that would be used to determine whether a specific parcel might be considered for preservation, should the opportunity to do so present itself. Glen Oakes scored very well when put through the test that will be implemented for any and all lands that should come before us for future consideration.

Besides the Glen Oakes Project, we needed to determine how to best present this year's Open Space bond initiative. After much consideration, the Committee decided to bring forth a \$1 million bond for the purchase of land or easements for the future preservation of open space. Passage of this bond, along with passage of the \$900,000 bond for the purchase of Glen Oakes will have a positive effect of the future of the town and will be a step forward in preserving our heritage.

Respectfully submitted,
The Fremont Conservation Commission

REPORT OF THE EXETER RIVER LOCAL ADVISORY COMMITTEE

Discovering the Past, Preserving the Future

The Exeter River Local Advisory Committee (ERLAC) celebrated its 8th year of stewardship of the river and watershed in 2004. Without a doubt, the highlight of the year was the 4th Annual Exeter River Alewife Festival held June 5th along Swasey Parkway in downtown Exeter. Approximately 800 people strolled along the Parkway to talk with dozens of organizations and individuals interested in protecting natural resources in the region. The second annual canoe and kayak race was held and fifty paddlers raced along a course set on the tidal Squamscott River. Plans are underway for the 5th Festival and another canoe and kayak race to be held June 4, 2005 along Swasey Parkway.

In addition to organizing the Festival, ERLAC held the fifth annual vernal pool workshop in East Kingston. Once again, ERLAC representative Patrick Seekamp of Brentwood and his brother Michael led this hands-on workshop designed for families. Children and adults waded into pools scattered throughout the forest to identify salamanders, turtles and clusters of frog eggs. Development of forestland threatens vernal pools in every watershed community.

ERLAC is grateful to members Camilla Lockwood of Chester and Elisabeth Sanders of Danville for working on the reprint of the classic history of the Exeter-Squamscott River, Exeter-Squamscott, River of Many Uses. Written by Exeter native Olive Tardiff almost twenty years ago, ERLAC has updated this wonderful book with additional historical photographs, and a new introduction and afterword. Please contact ERLAC at 778-0885 to purchase a copy.

Protection of water quantity and quality are the primary topics of discussion at monthly ERLAC meetings. With support from the NH Estuaries Project, the NH Coastal Program and the NH Department of Environmental Services, ERLAC representatives and staff from the Rockingham Planning Commission met with Planning Boards and Conservation Commissions in the watershed to protect shoreline and uplands.

For 2005, ERLAC will partner with Conservation Commissions and Planning Boards in the ten watershed communities to provide education and outreach programs highlighting protection of water quality and quantity, wildlife habitat, and scenic and recreational resources in the watershed.

ERLAC meets the fourth Tuesday of each month at 7:00 pm in the conference room at the Rockingham County Nursing Home in Brentwood. Representatives are needed from Fremont. Please call the Rockingham Planning Commission at 778-0885 for more information.

REPORT OF THE FIRE DEPARTMENT

The year 2004 has been a busy year for the Fire Department there has been a marked increase in the number of Inspections, Plan and Site reviews. We have also been viewing all blasting that is done in Fremont.

Training is always ongoing, both in house and outside classes. This year we did 12 departmental monthly training sessions.

The Department has done upgrades on Engine 1 with an additional preconnect at ground level and Tank 4 had a quick dump added. This enables us to work better with other Towns in a tanker shuttle. Mutual aid is very important to everybody and this quick dump lets us conform to the mutual aid program.

The Fremont Firemen's Association has again donated to the Fire Department with Installation of the heat and air conditioning in the special service trailer, among other projects.

The residents have done a wonderful job with fire prevention in their homes with no full blown structure fires this year. Chimney fires have also been down this year. Woods fires were down due to a very wet fire season.

All of the fire apparatus and the special services trailer have new digital radios thanks to a Home Land Security Grant. All of the portable radios are supposed to be replaced this year.

The Department has been given a used ATV for fire supervision and smoke Investigation also to be used by the Rescue Squad. This unit was passed along from the Police Department when they received a grant for new machines.

The State Department of Resources and Economic Development and the Division of Forestry Lands, REQUIRE A PERMIT for outside burning. They also have a list of what and when you can burn. Hand outs are available at the Fire Station and Town Offices. PLEASE call Dispatch and let us know when and where you are going to burn, even if a written permit is not required. Someone will always see smoke and report it which we must check out. To get a PERMIT or advise us you are going to burn, call RAYMOND DISPATCH at 895-4222. They will in turn call one of the officers on duty and they will call you back with a permit. By State law NO PERMITS can be issued until 5:00 pm unless it is raining or the ground is covered with snow. Thank you for your help in this matter.

We continue to be concerned about being able to quickly and efficiently locate you in an emergency. If your mailbox is across the street from your driveway, PLEASE ALSO MARK YOUR DRIVEWAY. With all of the new homes and new roads, it is difficult to keep up with the growing population. Help us find you!!

Please be sure your home is numbered clearly, and if the house is not visible from the street, make sure the number is at the edge of the driveway, visible from the roadway. Sometimes the precious seconds it takes to locate you can make a difference.

Remember to take time to make a safety plan for your family. Have an escape route planned in case of a fire or other emergency. Set a meeting place outside your home, in a safe zone, where all family members can go to account for each other. Replace the batteries in your smoke detectors at least annually; use the changing of the clocks as a reminder for this important task. Remember that candles are the second leading cause of house fires in New Hampshire. Always use candles safely and keep matches and other incendiary devices out of reach of children. It only takes a second for an accident to happen. Live fire safe every day.

I would like to thank the Staff in the Town Offices, Rescue Squad, Police Department and all of the Fire Department Members and their families for their ongoing support to the Fire Department this year. To the members I wish to say "job very well done!"

Respectfully submitted,

Richard C Heselton
Fire Chief

REPORT OF THE FREMONT FOREST FIRE WARDEN AND STATE FOREST RANGER

The Fremont Forest Fire Warden, Fire Department, and State of NH Division of Forests and Lands cooperate and coordinate to reduce the risk of wildland fires in New Hampshire. To help us assist you, contact your local Fire Department to find out if a permit is required before doing **ALL** outside burning. Fire permits are mandatory for all outside burning unless the ground where the burning is to be done (and surrounding areas) is completely covered with snow. Violations of RSA 227-L:17, the fire permit law and other burning laws of the State of NH are misdemeanors punishable by fines up to \$2,000 and/or a year in jail. Violators are also liable for all fire suppression costs.

A new law effective January 1, 2003 prohibits residential trash burning (RSA 125-N). Contact NH Department of Environmental Services at (800) 498-6868 or www.des.state.nh.us for more information.

This last year was fairly quiet throughout the spring and summer months, however we finished the season with an active fall fire season. In order to meet an increased demand for services, the Forest Protection Bureau was reorganized into three regions with smaller Forest Ranger Districts and over the last several years we have added two Forest Rangers. The 15 state fire towers were the first to report on many fires throughout the state and they completed many other projects on the low fire danger days. The state implemented a program called Tower Quest to help citizens learn about fire towers and the need to protect New Hampshire's forest resources. The United States celebrated Smokey Bear's 60th birthday in 2004, and celebrations were held throughout the state. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire smart and fire safe!

Help us to protect you and our forest resources. Most New Hampshire wildfires are human caused. Homeowners can help protect their homes by maintaining adequate green space around the house and make sure that the house number is correct and visible from the street. **Only you can prevent wildland fires.** Contact the Fremont Fire Department by calling Raymond Dispatch at 895-4222 or the Station at 895-9634; or the NH Division of Forests and Lands website at www.nhdfi.com or call 271-2217 for wildland fire safety information.

2004 FIRE STATISTICS

(All fires reported through November 18, 2004)

YEAR	TOTAL FIRES	TOTAL ACRES BURNED
2004	462	147
2003	374	100
2002	540	187
2001	942	428

TOTALS BY COUNTY			CAUSES OF FIRES REPORTED	
COUNTY	# OF FIRES	# OF ACRES	CAUSE	# OF FIRES

Strafford	29	2	Miscellaneous	163 *
Sullivan	4	4	* Includes: power lines, fireworks, electric fences, etc	

REPORT OF THE FOOD PANTRY

Over the years, the Fremont Food Pantry has witnessed many changes within our community. The need for services such as those the Pantry provides, grows with every passing year. This past year, we were able to provide a continuous supply of stocked pantry shelves to the residents who depend on us. We were able to do so because of the generosity of the Fremont community.

There were many times when the shelves were almost bare, yet the word spread quickly and soon they were replenished. At the holidays, we were in need of Turkeys, fresh produce and other holiday items, (which we had none of) the word was spread, donations came in, and we were able to provide.

At the Fremont Food Pantry our mission has always been to provide relief to any Fremont resident in need. Thankfully, we have always been able to do so. Annually we serve Fremont residents on an as needed basis as well as providing Holiday Dinner Baskets at Easter, Thanksgiving and Christmas.

Respectfully Submitted:

Kathy Arsenault, President
 Debbie Burke, Vice President
 Stephanie Sim-Valliere, Board of Directors
 Karen White, Board of Directors
 Kathi Picone, Secretary

"That which the best human nature is capable of is within the reach of human nature at large."

REPORT OF THE HEALTH OFFICER

Thank you to all residents for helping to keep Fremont a healthy place to live.

We were fortunate not to get the influx of dead birds from West Nile Virus that was anticipated. No dead birds proved positive for west Nile Virus this past summer.

The scare from lack of flu vaccine has now been overcome.

Please help keep Fremont clean by picking up litter and trash on the roadside abutting your property. Thank you.

My thanks to everyone who helped make my job easier this past year.

Respectfully submitted,

Trudie Butler
Health Officer

REPORT OF THE HIGHWAY DEPARTMENT

2004 was a very good year for the Highway Department. Three big things happened: First, we rebuilt an existing sander, to be used for a backup. Now we have three sanders in operation for the first time ever. Second, all gravel roads in the Riverside Drive area were paved with hottop three inches thick, and Riverside Drive was overlaid with hottop as well. Third, we hired a full-time highway employee for the first time. He is Leon Holmes Jr, and is doing a great job.

In 2005 we are planning to overlay Barrell Run, Wildwood Drive, and Sawmill Lane with a shim and one inch top of hottop. We are also going to pave the last 1,100 feet of Tibbetts Road, three inches thick.

In 2004 we accepted Brown Brook Circle with conditions. These conditions were met and Brown Brook Circle is now a town road.

This year Kingman Court, a road off of Whittier Drive is finished, and will be on the warrant to be accepted as a Town road. Phase I of Tuck Woods, which includes Ingalls Lane, Dexter Court, and most of Tuck Drive will also be on the warrant to be accepted with conditions. I am in favor of all of these roads being accepted.

For the most part everything with highway operations is going good. There are some areas which we need you help with however:

First: Driveways – We ask that before anyone hottops a driveway that you get the proper permit. In the past, when I see that a driveway has been hottopped without a permit, I go there and sometimes I find that a paving company has told the homeowner that no permit is required, and sometimes I also find that the homeowner isn't satisfied with workmanship. It is required that you get a permit. When we can do the required inspections prior to paving, problems are avoided.

Second: All new subdivisions since 1986 have been designed with a 50 foot wide right-of-way. The travel way is paved 24 feet wide, leaving 13 feet on each side for town maintenance as well as drainage swales.

When a road is first built it has a three foot gravel shoulder next to the hottop, so that water can drain off the road. I am finding that topsoil is being placed over the gravel even higher than the pavement, thereby trapping water and causing the road to fail. We too, want your front yard to look nice, but we cannot have it interfere with the town's right-of-way. We must maintain a gravel shoulder at least level with the pavement or a little bit lower.

Third: Mailboxes – I am not sure how to handle this problem, but as the Town grows, so do our problems. To put it simply, there are just too many mailboxes too close to the pavement, too low to the ground. It is getting harder and harder to get the snow off the road. The steel rebar that is being placed for mailbox posts is also not acceptable. Please remember that your property does not extend to the edge of hottop, and that placement of obstacles in the right-of-way is not only a hazard, and subject to damage; but it is not allowed. Do not place any items or do any landscaping within that right-of-way.

More cooperation from all residents on these items would be greatly appreciated.

The Town only owns three sanders, four front snow plows, and three wing plows for winter maintenance. During the winter months we contract with seven private trucks and one loader and backhoe to maintain Fremont's roads.

In closing, I would like to thank all of the snow plow drivers. Thanks to all of the town Departments, especially the Police, who are watching the roads during the winter months and call to make sure we are out or headed out, when the roads need to be treated.

Thank you to all of the residents for your support and cooperation. I am looking forward to being Road Agent in 2005.

Respectfully submitted,

Guerwood M Holmes
Road Agent

REPORT OF THE TOWN HISTORIAN – 2004 IN REVIEW

The year 2004 marked the 150th Anniversary of when the name of the town was officially changed from **POPLIN to FREMONT on July 8, 1854**. The name was changed in honor of **JOHN CHARLES FREMONT**, the famous American West Explorer and later the first Republican U.S. Presidential Candidate in 1856.

2004 started off with record-breaking artic cold temperatures, the coldest since 1957. It was 31 degrees below 0 on January 16th. Numerous people had to have their vehicles jump-started as a result of this frigid cold spell which continued well into February. January proved to be the second coldest January on record dating back to 1875! Fremonters gladly shook the cold winter-time blues by celebrating the Boston Patriots' Football Team as they won their 2nd Super Bowl Victory (in three years) against the Charlotte, NC Panthers 33 to 29. It was an incredibly exciting, nail-biting game right to the very end of the 4th Quarter.

Spring saw the **Flood of 2004** on April 1st and 2nd which caused minimal damage around Fremont. The Exeter River overflowed its banks at Cavil Mill Pond (Turner's Pond), in Fremont Village behind 259 Main Street, at Tibb's Grove, the Exeter River Campground, the Piscassic River on Leavitt & Martin Roads, the Bog Bridges on Sandown Road, at Red Brook on Main Street, and at Copyhold Mill Dam near the Fremont-Brentwood line. Summer had few hot days, with most days being pleasant, blue-sky, sunny days. Considerable summertime rain fell mostly during evening hours. Autumn foliage proved very photogenic and lasted well beyond Halloween in many spots. The year weather-wise ended with some snow on the ground and mostly mild temperatures, so much so that ice sculptures at regional December 31, 2004 New Years Eve celebrations were actually melting.

A special Fremont School District Meeting took place on January 5 at the Ellis School Gym to see if the town would approve a 20 year tuition contract with Sanborn Regional High School in Kingston. The article passed 190 ayes to 40 nays. The measure also had to be approved in Kingston and Newton at their School District Meetings in March, which it did. With the approval came Fremont's responsibility of helping to finance part of the new \$30.8 million Sanborn Regional High School to be built on Danville Road in Kingston.

On March 6, Fremont voters approved the funding for a \$2.38 million, eight-room addition onto Ellis School by a vote of 162 ayes to 50 nays. This figure also included a paved enlarged parking lot, a new soccer field, new septic system, replacement of old ceiling tiles, installation of underground utility lines, and cleaning of the air-duct system. A Charter Commission to look into adopting a customized version of the Official Ballot Law was approved at the 2004 Town Election Day. A new entrance road off Beede Road leading into the Ellis School was built and paved in mid-2004.

The 240th Annual Town Meeting took place on Saturday March 13 at the Ellis School Gym. The big topic on the town warrant was the \$4 million Open Space proposal. After 1 ½ hours of debate, the measure failed to garner the required 2/3rd

vote by just 6 votes – 164 ayes to 90 nays. Voters approved funding to update and reprint in hardcover the History of Fremont, NH – Olde Poplin – An Independent New England Republic – 1764-2004. The new 1,111 page volume became available for purchase in November. Sales of the book are refunded to the town. A Compact Elderly Housing Development Proposal (in residential zones) passed 306 ayes to 102 nays on Town Election Day.

Fremonters bravely serving in the Iraq War include: **Lisa Begley, Tami Bolduc, Nathan Butler, Todd Buttrick, Christopher Carr, George B. Clemons, Donald W. Gates III, Peter Gibb, Edward G. Haggart, Jr., Dennis Hartwell, Brian F. Hopkins, Jason Larochelle, John Lennon, Lonnie Major, Grant A. Mason, Christopher Matthews, Darin Melanson, Dean Rice, William P. Smith, Gary Stanley, Michael Tinsley & Wesley S. Wackrow.** Please let this author or the Selectmen's Office know of other unknown resident servicemen & women so they can be added to Fremont's military archives.

In March 2004, convicted **Fremont murderer Steven Roy** was denied an appeal for the June 1992 murder of Joanna Kozak in the Scribner Family Cemetery in Raymond.

The Fremont Historical Museum, located at 8 Beede Road, in the former town library and before that, the 1895 one-room Grammar Schoolhouse was opened to the public during an Open House held on July 10 & 11. Three hundred people came to celebrate the grand opening. The museum houses over 30 Fremont-related historical exhibits. In October and November, 17 year-old **Ray Verley, a Troop #1 Boy Scout**, worked incredibly hard to create a nice Park at the Fremont Historical Museum as part of his Eagle Scout project. Ray installed an aluminum flagpole, two park benches, rock wall gardens, and planted perennials within those gardens. He also donated an American Flag and remaining funds to the Historical Museum. After an amazing amount of work and record-keeping, we are very pleased to report that Ray attained his hoped-for Eagle Scout rank. All of Fremont congratulates you Ray!!

Lester Barthelemy, a Fremont 4-H member, was photographed meeting President George W. Bush during a Stratham, NH Presidential visit in August.

During the November 2, **2004 Presidential Election** Fremont cast 1154 votes for Republican George W. Bush, 863 votes for Democrat John F. Kerry, and 16 votes for Green Party candidate Ralph Nader. 2049 Fremont votes were cast out of a total voter registration of 2525 – a Fremont voting record.

Fremonter John E. Vahey, 48, tragically died along with his Manchester, CT co-worker, when his electrical utility truck in a 52-truck convoy, collided with a tractor-trailer truck in Florida on August 24, rolling over and bursting into flames. John was part of an Electrical Workers Union deployed to help restore electrical power to the hurricane devastated state of Florida. He left behind a wife and two sons.

Karen Philbrick, 56, longtime owner of the Colonial Poplin & Poplin Way Nursing Home passed away in April. Her father George Cook, Sr. founded the Colonial Manor Nursing Home in 1968 in the old 1771 Nathan Merrill Tavern which was torn down in 1996 to make way for the new Fremont Public Safety Complex. The business was renamed Colonial Poplin in 1983 when a new larger nursing home facility at 442 Main Street was built just east of Ellis School. Karen was well known for her dedication and commitment to providing seniors with good quality nursing home care.

The **125th Anniversary of Fremont Memorial Day Observances** took place appropriately on Sunday, May 30th – the original date set aside for Decoration Day - later changed to Memorial Day. Local resident & Army Colonel Gary Stanley served as the Guest Speaker of the day speaking in part on the current Iraq War. He was later followed by local historian Matthew Thomas who spoke on the many outstanding military contributions of Poplin/Fremont servicemen & women dating back to the 1775-1783 Revolutionary War. Scottish Bagpipe Music was provided by the Dunlap Highland Band. Amazing Grace was also played on the bagpipes by Kerry & Tammy Pratt of Raymond.

October saw the annual **Snowmobile Grass Drags & Water Crossing Championship** held at the Peterson Farm on Martin Road. This is now the largest event of its type within the US – drawing between 15,000 and 20,000 spectators. This annual event dates back to 1985, but the author recently discovered that this event was also held in 1982 on the Peterson Farm.

Ellis School students worked hard to raise an impressive \$1,580.00 to go to cancer research. The students were lauded for their outstanding contribution by the Leukemia & Lymphoma Society based in White Plains, NY noting Ellis School's fundraising total far exceeded the average NH school donation of \$900. They stated "some of those NH schools have a couple thousand children, and the Ellis School donation is well above the average – we're always amazed at how generous children can be."

A new glass door flanked by large glass windows replaced the old metal door and sidelight windows (installed in 1989) on the front entranceway of the 1911 metal-sided **Town Hall** on October 2, 2004. This gave a modern look to an old Victorian-style building. White spotlights were erected in October on a telephone pole in front of the 1800 Meeting House to illuminate both the historic twin-porch Meeting House, and the flagpole in the 1819 Fremont Village Cemetery.

The Seacoast United Soccer Club was given final approval in February to build a \$3.5 million outdoor soccer complex on the Fremont-Epping town line. As of mid-January 2005, construction has yet to begin on the complex.

The **Fremont Garden Club** continued to work hard decorating various Fremont public landmarks throughout the year – doing much to enhance the beauty of the town. Their dedicated efforts are much appreciated by residents of Fremont. A new group

called “**Fremont Citizens for Sensible Government**” was founded in April. Their goal is to serve as a watchdog on local tax spending.

The **Fremont Police Department** was presented with the gift of a **D.A.R.E. car** in July. Al Witham, owner of Witham's Countryside Estates in Fremont, generously donated a metallic silver 2000 Honda Civic to be used as part of the Fremont Police Department's Drug Abuse Resistance Education program. The members of the Fremont Police Department worked hard and successfully on a number of crimes that occurred in Fremont in 2004.

April 8, three individuals were arrested in Fremont by the NH State Police SWAT team in connection with an alleged string of robberies that occurred in both Rockingham & Hillsborough Counties. One of the individuals arrested, was a former Massachusetts convict with three counts of armed assault with intent to murder on his record.

A veteran Lawrence, Massachusetts police sergeant, John F Sapienza, pled guilty in April for stealing weapons and ammunition that he stole from the Lawrence Police Department and stored in a Fremont storage unit. The stolen items were ironically accidentally uncovered when vandals happened to break into Sapienza's storage unit and discovered the cache of weapons and ammunition.

John Hopping of Newmarket, NH pled guilty in July 2004 for illegally dumping 900 tires along a dirt section of Shirking Road (west of Beede Road) in spring 2003. He was found guilty and fined for various related offenses, and required to perform 100 hours of community service to Fremont by removing other illegally dumped solid waste along Shirking Road.

Liberty Square Market was robbed at gunpoint by two masked men in early September. The two men were wearing black hooded sweatshirts with white bandanas covering their faces when they barged through the front door brandishing a gun and told the clerk “not to be stupid, and to give them the cash.” This was the first time the store had been robbed since 1983. The store has occasionally been robbed since it first opened for business by Daniel Chase in 1820. It is one of the oldest country stores still operating in New Hampshire.

In December Ricky Felice, 44, and Patricia Oddi, 39, both of Fremont, were arrested for allegedly operating a seacoast area theft ring, and both were arrested on multiple counts of theft and drug possession after a pickup truck allegedly stolen in Danvers, MA was recovered in Hampton, NH.

Many old **maple trees** around Fremont are rapidly deteriorating due to a maple tree disease coupled with years of road salt use, both of which are adversely affecting that most noble of New England trees. The impressive 100 year-old maples standing in a straight line along a lengthy stretch of South Road between Scribner Road and Gates Lane, are now succumbing. It became necessary to cut down three of these “old soldiers” on March 23, 2004...unfortunately just the start of several cuttings to come

along that scenic stretch of road. What a shame people do not plant trees in rows along the roadway like they used to years ago. Rows of trees always unequivocally added stately beauty to the rural landscape. Many remember the tall stately old Elms that formerly lined almost every Main Street in countless New England towns until the 1950's. Many of the old maple trees are still tapped for maple syrup by William Knee, Fremont's leading maple syrup boiler who has a Sugar Shack on Sandown Road.

New known Fremont Businesses in 2004: **"That Look" Hair Salon** on Leavitt Road, and **Schreiber's Restorative & Collision Repair Shop** on Main Street. The **Glass Blossom Floral Shop** on Main Street closed in May.

New Fremont Roads in 2004 – Hall Road, Gilman Meadow Lane, Chase Road (off Hall Road) when it is built. New developments include: **Spruce Hill, Village At Black Rocks, and Jacket Hollow**. Three more condominiums were built in **Pitch Pine Development** on Susan's Way. Several new houses were built this year in the **Tuck Woods Development**, and on **Treaty Court** located in southwest Fremont. The historic **James Merrill-Albert "Pokey" Fuller – Florence Hall House & Barn** at 258 Main Street in Fremont Village – built circa 1756 -1764, was torn down in September to make room for a new "colonial reproduction." This old house served variously as a store, tavern, and large poultry farm for many years in its history. Several large old hen houses that stood on the former hill that stood behind the Fuller-Hall House were burned down in 1967. Only 19 homes still stand in Fremont that were built before the end of the Revolutionary War in 1783.

Fremont's population topped the 4,000 mark in 2004 – up from 1,333 just twenty-four years ago in 1980.

Respectfully submitted,

Matthew E. Thomas
Town Historian

REPORT OF THE LIBRARY TRUSTEES

The Library Trustees are very pleased to report that as Fremont residents become more and more familiar with the many services and benefits that their local public library offers, so does use of the library increase. Total library circulation has increased from **4347 in 2001** when we were still in the old one-room schoolhouse library at 8 Beede Road, to **12, 227 in 2004 – thereby, tripling use of the Library in just three short years!** These figures do not reflect the number of various patrons that come to the library to utilize and enjoy the various newspapers, magazines, research materials, copier & fax services, computers, story hours, public programs, etc. In retrospect, it certainly proved true that if Fremont could build a more suitable, enlarged, practical library facility, then it would generate more use. The Trustees are happy to report that this has indeed been the case.

The new library automation system brought our library into the 21st century and was successfully implemented by late March 2004. This new expensive system was a generous gift to the people of Fremont by a longtime public servant of the community. Thanks to this kind philanthropic gesture, taxpayers were spared the eventual funding of this vital and essential library program.

The Community Room at the Library has again proved its great worth, having been utilized by numerous public and private groups and organizations over the past year.

The **Friends of the Fremont Library** generously donated two new computers to the library. As always, their hard work, support, and generosity are genuinely appreciated. The Friends lost members Dave & Carol Fenton this past fall due to job relocation in North Carolina. Their friendship & dedication as volunteers will be deeply missed. **The Friends certainly welcome and encourage all those who enjoy books and promoting worthy library services, to join them. Please contact the library for more information.**

The 4th Annual Fremont Public Library Golf Tournament was held in September at the Apple Hill Golf Course in East Kingston. The 2004 Library Golf Tournament raised \$4,000!! **Again, the Trustees cannot sufficiently thank all those many people who so generously volunteer their wonderful services and monetary contributions to make this annual event such a terrific success!** This is the type of support that truly helps make Fremont so special. The monies raised through these golf tournaments helps purchase much needed equipment and supplies, thus holding down library costs and expenses that would normally be raised through taxation. **It should be noted here that because of such outstanding community support, the Fremont Library Operating Budget is significantly much lower than any library in Rockingham County except South Hampton and Newfields – both communities with less than 1,600 people, compared to Fremont’s 4,000 population.**

Many wonderful and worthwhile children’s programs and public activities were again sponsored during the past year at the library - much to the enjoyment of countless young and old alike.

The Library Trustees again wish to **thank** all those who have thoughtfully donated funds, books, videos, furniture, memorial donations, books-on-tape, magazines, craft supplies, and numerous other items that enhance our local public library. We are also very grateful for the wonderful library staff which we are so fortunate to have, and who capably serve our patrons. Many thanks, to Dick Rand who faithfully works hard to maintain our library facility and grounds in such an outstanding manner.

Respectfully submitted,

John J Hennelly, Chairman

REPORT OF THE PARKS & RECREATION COMMISSION

The Town of Fremont's Parks and Recreation Commission oversees recreational programs and activities for the community and the maintenance and management of our recreational fields.

The year 2004 was another successful year for the summer recreation program. This is a fun and safe six-week program for Fremont children between grades one and eight. The program was based at the Town's recreation park this year due to construction at Ellis School. The children enjoyed many fun field trips, arts and crafts, and games as well as educational activities. Enrollment in the program averaged about 30 children per week. This program is always popular and we anticipate another great time in 2005.

For the little ones in Town we sponsor a playgroup for Fremont residents with children under six. This program provides an opportunity for children and parents to socialize, play, sing, read, learn, and have fun. Joy Wood led the program in 2004 and we would like to thank Joy and all of the people who make these programs such a tremendous success.

We sponsored several community activities in 2004, including an Easter Egg Hunt in the Spring, the Memorial Day Parade for the Town's children, a Halloween Party in the Fall, and the Christmas Tree Lighting in December. These events were a huge success and many community members showed their support by attending as well as joining in with a helping hand. We look forward to continuing these Town traditions for years to come.

This year marked the first full year of use for the newly constructed recreation fields located at Memorial Park. Many games were scheduled, played, and enjoyed by the community at the new fields during the baseball, softball, and soccer seasons. Drainage work was performed in the spring of 2004 to address recurring soil erosion, and a new infield was installed at the Babe Ruth field in Fall 2004. Other enhancements included the installation of safety netting, fencing and canopies at all three ball fields; construction of batting cages and dugouts; and improvements to the interior of the concessions stand. These improvements to the fields and facilities are a great source of pride to our community and we look forward to the approaching recreation season.

Fundraising for a new playground at Memorial Park has progressed. A fence was installed around the perimeter of the playground area, and engraved fence pickets are being sold to raise funds for new playground equipment. Our goal is to replace the antiquated playground equipment with safe new equipment to serve the children and families of Fremont.

We are dedicated to continuing these successful programs and we are always seeking new ideas to build the community through recreational activities and programs.

Without volunteers from the community, the success of our activities would not be possible. We would like to recognize the special time and effort of organizations such as the Fremont Athletic Association, PTA, Ellis school employees, the Board of Selectmen, Town Office Staff, and everyone who supported us during the year.

Respectfully submitted,

Renee M King

Jeff Rowell
E Joy Wood

REPORT OF THE PLANNING BOARD

Your Planning Board volunteers have been working hard for you! 2004 presented many challenges and successes. While proposals for growth in our town are not slowing, we are aggressively managing the plans that come before us. Our biggest challenge is balancing the property owner's rights with what is best for our town. While some residents would advocate pure growth decisions, town counsel reminds us, we don't have those types of powers. The Board approaches every proposal with careful consideration and utilizes every tool available. Your Board volunteers have been extremely diligent in managing growth.

We are excited to have developed new and closer working relationships with other committees and departments in Fremont, as well as, organizations outside of our town. Several committees have approached the Board to open communications and the Planning Board has been very receptive. We have worked on subjects ranging from reduction of impermeable surfaces to smart growth management practices, wetlands mapping, and Prime wetland issues. In our recent work on the regulations we were very glad to have critical input from the Conservation Commission along with their attention to new projects proposed in Fremont. We also worked on Master Plan updates.

One significant proposal the Board is currently working on is the cooperage area in the center of town. This current proposal is very exciting. It has the potential to impact the very way we view and enjoy our town. The Town has spent considerable time and effort in reviewing this project. Under review are various commercial occupancies, traffic flow issues, aesthetics, and recreation space. We are working with many Town departments and have welcomed public input as well. There is still a lot of work to be done on this proposal and we welcome your input.

The Board has also worked with the Rockingham County Planning Commission to develop proposals for your consideration of the Warrant at the Town Meeting. These changes enhance the Board's ability to manage proposals and streamlines our ability to make decisions as we work with other boards in Town. In addition, you will vote on aquifer protection issues that are important to managing growth in and around your aquifer.

During the course of the year your Board acted upon a grant for a Visioning Chapter to be added to our Master Plan and supported a Natural Resources Outreach Coalition Planning Grant and a Conservation Grant. The Board also reviewed and acted upon the following proposals:

Ten Site Plan Reviews which created such things as multi family dwellings, retail shops, a beauty salon, a collision repair shop and a soccer club.

Five Subdivisions for a total of thirty three new lots.

Four Gravel Operation Renewals

Two Lot Line Adjustments

In 2004 approximately \$106,000 in impact fees were collected for the school.

I would like to thank your Board member volunteers who worked so hard for their town this year:

Vice Chairman: Peter Gibb

Selectmen's Representative: Peter Bolduc

Members: Leon Holmes Jr, Marilyn Baker, Mark Pitkin

Alternate Members: Joseph Delahunty, Dan Cocci

I would like to give a special thanks to our Recording Secretary Kimberly Dunbar, other staff who assisted this year, and to our Rockingham Planning Commission partner David West.

We are always looking for new volunteers to the Planning Board. We are currently working on projects that will significantly impact Fremont. Your input is valuable. Come on out and join us!

Respectfully submitted,

Kevin Herrmann
Planning Board Chairman

"What makes a plan capable of producing results is the commitment of key people to work on specific tasks." ~Peter F Drucker

REPORT OF THE POLICE DEPARTMENT

2004 proved to be a very challenging year. Due to a turnover in personnel, we hired, equipped and trained four new officers. I believe our ongoing and required training program is the fundamental basis of providing a professional police department, and is the basis for our mission statement

MISSION STATEMENT

The mission of the Fremont Police Department is to protect our residents and all those who pass through our community by establishing high standards of impartial and professional law enforcement. We as dedicated officers must learn from the past, meet the present challenge, and plan for the future.

During 2004 we saw an increase in patrol activity, including 4255 calls for service. We did 399 directed patrols, 1652 vacant house checks, and 6295 business checks. There were 1284 motor vehicles stopped that resulted in 426 summonses and 729 warnings issued. We arrested 86 individuals. We had 243 court cases. As the Town of Fremont continues to grow, the strain on all emergency services will also continue to grow.

I have listed by category the type and number of reportable offenses to which the Fremont Police Department responded:

Administrative	648	Aggravated Assault	1
Alarms	84	Animal Control	522
Arson	2	Assaults	10
Assist Other Agency	366	Assist Fire / Ambulance	159
Assist Other Fremont Dept	25	Burglary	13
Criminal Threatening	4	Criminal Trespass	5
Disorderly Conduct	49	Domestic	23
Drug Offense	1	D W I	1
Fraud	12	Harassing Phone Call	8
Juvenile	46	Motor Vehicle Accident	65
Motor Vehicle Complaint	70	Motor Vehicle Theft	5
O H R V Accident	5	O H R V Complaint	27

With the continuing financial support of many of our residents and local businesses, and the continuing cooperation and dedication of the staff at the Ellis School, Officer H.D. Wood (Denny) and Barbara Baker of the Fremont Police

Department, we were able to complete our eleventh D.A.R.E. (Drug Abuse Resistance Education) Program.

The O.H.R.V. program continues to be a great success. The program consists of three parts:

- Education:** Sergeant Reese Bassett is nationally certified by the ATV Safety Institute to instruct ATV safety to Public Safety personnel as well as our young operators. The Fremont Police Department will continue to host the New Hampshire Fish and Game Safety and Certification course for new riders.
- Engineering:** We work very closely with the New Hampshire Fish and Game Department and the New Hampshire Department of Parks and Recreation, Trails Bureau. We are constantly looking for ways to upgrade the safety of the trails system.
- Enforcement:** We have established a pro-active OHRV patrol that runs all year. We have substantially reduced the number of OHRV complaints received from our residents. The officer's primary patrol is the Rockingham Trail and surrounding areas. We also respond to other sections of the Town that are identified as problem areas.

We were able to obtain through a Federal Grant, two new Yamaha Grizzly ATVs and a trailer to house them. The original machine that was purchased by the Town three years ago has been turned over to the Fire and Rescue Departments.

I wish to thank the many volunteers who donated both time and machinery to make our shooting range a possibility. If everything goes as planned we will be able to train using the new facility in 2005. This is a great example of group of dedicated people stepping up to the plate and pitching in to get a needed project done.

As we respond to an increased number of alarms, we are experiencing a problem. We are unable to contact the owners or a key holder because the installing alarm company has not informed the customer that the alarm must to be registered with the Fremont Police Department. This is a simple matter that requires a one-page form to be completed. This information is entered into our database and is available to the duty officer when he responds to the alarm.

Our database also tracks persons with special needs in the event of an emergency, such as the need for power for life support, and persons who need special vehicles or are unable to leave their residence without assistance during an evacuation. Again this is a simple one-page form that needs to be completed. This information is kept strictly confidential and is only available to the Safety Services responding to the event.

Both registration forms are available at the Safety Complex. If you are not currently registered for either service, call us and we will send you the necessary paperwork.

As our community grows and our problems increase, the TEAM concept becomes essential. I am once again asking the residents of Fremont for their help. Be aware of your neighborhoods. If you see anything that makes you suspicious, call the Police Department at 679-2225. If you have an emergency, call 911 for help.

To the residents of Fremont, the Board of Selectmen, the Town Office Staff, the members of the Fire Department, Rescue Squad, Highway Department and the members of the Police Department: Barbara Baker, Lieutenant Charles Rand, Sergeant Reese Bassett, Officers H.D. Wood IV, Robert Allore, Joseph Gordon, Jason Grant, Ross Desmet, Joshua Turner, Thomas Clivio, and Daniel Mercurio THANK YOU for your continued support and cooperation.

We all are looking forward to and praying for the safe return of Officer Jason Laroche who has been on military duty and stationed in Iraq.

Respectfully submitted,

Neal R Janvrin

REPORT OF THE RESCUE SQUAD

As each new year comes along, we see more and more emergency medical calls. 2004 was no exception. With the rapid growth in Fremont, we saw a 20% increase in our call volume, responding to a total of 180 emergency calls. It takes a great group of volunteers to keep up with the times, and I'm glad to say we have them!

This past year also saw a large growth in injuries from recreational activities. In a rural town like Fremont, this is not really surprising. Many of these calls were in remote areas that were not easily accessible. To help with future calls like this, we got a rescue trailer that can be towed behind the Emergency Service's ATV. This trailer is specifically designed for EMS applications to carry a secured patient and 2 or 3 EMT's. With this new piece of equipment, we will be able to provide a safer and more comfortable patient transfer out of a remote location to the ambulance. This should serve as a reminder that extra care should always be taken when your activities take you off the beaten path. Our most common calls this past year were horseback riding and riding ATV's or dirt bikes. But, there are others that need to be remembered. Camping, hiking, hunting, swimming, etc. All of these can bring you into an area where help will be seriously delayed. Are you prepared? Consider these things before you head out:

- Always tell friends and family where you're going and when you plan to return.
- Go with a buddy whenever possible and stay in areas you know.
- Consider carrying a small first aid kit, cell phone, GPS, etc.
- Be prepared to stay out longer than you planned. If you are injured, you may be out after dark, or in worse weather.
- Take any safety training classes for your hobby and always wear the necessary safety equipment.

Think before you start any activity and help avoid the emergency in the first place. Prevention is KEY, and planning ahead helps take the confusion out of a scary situation.

We were able to offer a few CPR classes for the first time in 2004. Look for some community classes this year. CPR is very simple and can mean the difference between life and death. If you live or work around high-risk people, have children, or watch other people's children, it becomes even more important. We strongly urge everyone to take a class whenever you can. Watch for our future classes or feel free to call to set up a class for your business or friends and family.

We also want to take this opportunity to remind you of a very important issue to all of the emergency services. **Visible house numbers**. We can never stress this enough! Even if your house is right out in the open, that doesn't mean we know where it is. Please make sure that your house number is marked on both sides of your mailbox, or on a post near the edge of the road. They should be large enough to be

read from 100 feet away. Many people put numbers on the front of their mailbox or on their front doors, but these are near impossible to see day or night. Snow and tall grass or bushes can also block existing numbers. Please be sure to keep an eye on this and keep them clear. When there is an emergency at your home, Rescue, Fire, or Police are doing their best to get there in a hurry. We really need your help to make sure we can find your house without delay.

As with most EMS agencies, we are always looking for more members. We are short in a few areas and could use your help in filling those needs. First, daytime coverage is always hard to find. We are very shorthanded in this area right now. Many of our members that were available during the day have recently changed jobs taking them out of the area. If you are around at all during the days, or even some days, we need your help! Second, we are short handed on the North and West sides of town. With members spread out all over town, our response times can be reduced. When seconds count, it's nice to know someone is nearby. We could use anyone in the areas of Main St heading towards Raymond, and the Beede and North Rd areas. Third, we need more female members. We currently have only 3. There are many situations where a patient would be more comfortable with an EMT of their own sex. We want to be able to provide that option to the patient whenever possible. Of course, we are looking for ANY new members. Even if none of the above applies to you, we still need your help. All training is provided for you and no experience is needed. All you need is a desire to help out your fellow townspeople in their time of need. The work of an EMT can be very rewarding, and the time constraints are not as much as you may think. If this sounds interesting to you, please give me a call to find out how the process works. **We need your help.**

As always, we would like to thank the residents of Fremont for their support, the Police Department for keeping us safe and providing an extra set of hands, the Fire Department for being there whenever we ask for their help, and the Highway Department for helping us get where we need to go during the bad storms. Last but not least, thanks to all the members of the Rescue Squad for their continued hard work and dedication throughout the year!

REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen had a busy schedule again this year. We continue to meet weekly on Thursday evenings and have additional meetings that are related to projects or single agenda items such as working on the budgeting process.

The legal matters brought on by developers MDR Corporation and Torromeo relative to the town's enforcement of its growth control ordinance continued in the sense that they petitioned US District court to be heard on still another issue. This case has not yet been scheduled for trial but it is anticipated that it will be in 2005. The good news in this matter is that the Town's insurer has joined in the Town's defense.

We are pleased that the Town has finally addressed its school capacity issues through an addition to the Ellis School and has developed a long-term relationship with Sanborn for our high school students. This was the single greatest need our community has had and the reason for related growth control ordinances which were painful to implement and costly to defend.

This past warm weather season marked the first season that the new fields at Memorial Park were used for playing. In the fall a new infield was installed on the only unimproved field, the Babe Ruth field. There were some "growing pains" but as the season progressed, coordination of the care and use of the fields was refined. Once again thanks to some key volunteers, the softball and baseball dugouts were constructed through volunteer efforts. There is still some work to be done.

With the 2004 Town Meeting approval, the property revaluation was contracted and got underway in the fall. It is expected that this will be fully completed by the fall of 2005. Property owners should continue to watch for updates on the progress in the monthly newsletter.

In our budgeting for 2005 we made a concerted effort to hold down the Town's operating costs to minimize tax impacts for 2005. All of us as taxpayers have felt the impact of recent tax increases and although we realize that so long as the cost of public education is funded largely through property taxes, taxes will be high, we want to minimize the Town's impact. For 2005 there are a few initiatives and anticipated needs have been budgeted very closely. Unanticipated needs will be very difficult to manage.

On the warrant this year are two bonding articles to purchase open space land. We support the passage of these articles because they help preserve Fremont's rural character, our environmental quality, and very importantly, it has been demonstrated that in the long run, reducing the amount of residential land development reduces property tax rates. We urge voters to attend hearings or contact the Open Space committee members to get more information if they have any questions about these two particular articles.

In 2004, the Town approved its first full-time Highway Department position. We are pleased to have Leon Holmes Jr as the Town's first full-time employee in the

Highway Department. Other changes in 2004 were the Code Enforcement Officer, Paul Colby, who resigned in November to take a similar position elsewhere. In the beginning of January 2005, Thom Roy was hired to replace Paul. We welcome Thom into that challenging role. Also in December Kimberly Dunbar decided to leave her position as secretary to the Planning Board and Zoning Board of Adjustment. Fortunately for the Town, Meredith Bolduc, who has years of experience in that role, applied for the position and began filling the position in January of 2005. A special thanks to Paul and Kimberly for their years of service.

As a result of the voters decision at the March Town Meeting, Peter Bolduc rejoined the Board of Selectmen this year. He filled the unexpired term of Norman Martineau who resigned in 2003. Peter had prior experience on the Board of Selectmen and the Fremont Planning Board. With those experiences Peter was able to join the Board of Selectmen and make a strong contribution right away. The Board has enjoyed working together, taking on the many challenges in this past year.

Rick Clark left the Board in March to pursue career and educational interests in Florida. He hopes to return to Fremont and community service here. Rick's participation on the Board is missed.

We want to thank all the volunteers, elected officials and employees for their contribution to making Fremont work. Without all of you it would not be possible to achieve what is accomplished.

Respectfully submitted,

The Fremont Board of Selectmen
Gene Cordes
Donald Gates Jr
Peter B Bolduc

REPORT OF THE TOWN CLERK

The year 2004 proved to be an extremely busy year for the Town Clerks Office. Revenues increased quite a bit this year, up 43,760.58 overall from 2003. The continuing growth of the community contributes to the increase in revenue and the overall number of customers visiting our office.

In addition to motor vehicle registrations, this office also provides many other services such as; marriage licenses, certified copies of marriage licenses, birth & death certificates, dog licenses, vehicle title applications, UCC filings, voter registration, and cemetery deeds.

This year the Town Clerk's Office would like to express its sincere thanks to Elizabeth "Betty" Stanley. Betty served this office and the Town as Town Clerk for over 25 years, and as Deputy Town Clerk for the last 6 years. This March, Betty will not be seeking reappointment as Deputy. We are saddened by her departure, yet grateful for her years of dedication and service to the residents of Fremont.

Her wealth of knowledge about our community has proved to be invaluable over the years. I would like to personally thank her for "showing me the ropes". Her patience and understanding while I was in training are greatly appreciated. I am grateful for her infinite wisdom and knowledge about all facets of the Town Clerks office. Working side by side with her over the past 6 years has been both an honor and a privilege. May your well-deserved retirement hold many opportunities for travel and other enjoyable activities. I will miss you, and our community will miss you.

In September, Kathy Arsenault joined the office team as a clerical assistant. She has become a valuable asset to the Clerk's office.

I would like to extend my gratitude and thanks to the Town employees and Town departments with whom this office works with on a daily basis. Your support and assistance is greatly appreciated.

Respectfully submitted,

Lori A Holmes
Town Clerk

Betty Stanley

We wish you all the best!!

"A life spent worthily should be measure by a nobler line – by deeds – not years...He prematurely falls, whose memory records no benefit conferred by him on man: They only have lived long who have lived virtuously."

~ Richard Sheridan (1751 – 1816)

REPORT OF THE ZONING BOARD OF ADJUSTMENT

2004 was a very active year for the Zoning Board of Adjustment. There were thirty four requested actions, one was rescinded, one was determined as not necessary and thirty two were acted upon by the Board.

The Zoning Board of Adjustment (ZBA) takes action upon written request for considerations for Special Exceptions, Variance, Equitable Waivers of Dimensions, and Administrative Decisions. The ZBA in Fremont is made up of five members and other alternates.

Special Exceptions are provisions within Fremont's Zoning Ordinance that allow for use given a set of defined criteria has been met. In the majority of instances these requests deal with construction activities within wetlands and watershed protection areas that are specifically allowed by the ordinances. If all conditions as spelled out in the Zoning intentions are met – then the ZBA must grant the request. Only in cases where conditions are not met can the ZBA deny. The ZBA at times attaches specific conditions for the purpose of fulfilling the provisions of the zoning intent.

A Variance is a request allowing for use that is specifically not allowed by the Ordinance. In requesting a variance the applicant is challenged to present their case as to why, in a particular situation, consideration should be granted. These requests usually deal with setbacks or type of usage. A five point test of conditions must be met to be granted a variance.

A request for equitable waivers of dimensional requirement is a provision added a few years ago which provides for allowing placement of a structure that has been placed by error within a setback requirement. The applicant must prove that the placement is by error and not due to lack of understanding of the aspects of the zoning requirements.

Individuals may appeal to the ZBA as to the correctness or strict interpretations of the Zoning Ordinance made by an administrative official in town as it relates to a determination effecting the enforcement of the Zoning Ordinance.

The ZBA would like to thank Thom Roy for his years as Chairman of the board, having served in that role since 1994. Due to possible conflicts of a judicial nature Thom had to post his resignation upon acceptance of the Building Official/Code Enforcement role.

A special thanks to our Recording Secretary Kimberly Dunbar and several other town employees who assisted the Board in 2004.

Some highlights of the Board's activities were:

Sixteen Variances; approved fifteen and denied one

Fourteen Special Exceptions: all approved or conditionally approved.

Two Equitable Waivers of Dimensional Requirements: approved one and denied one

Appeals of Administrative Decisions: none heard

As always, if you have any input or concern or would like to participate in the Zoning Board, please contact us at the Town Hall.

The ZBA meets upon request and has regularly scheduled meetings on the last Tuesdays of each month or by appointment or application.

Respectfully submitted,

Zoning Board of Adjustment

Chairman: Currently Open

Vice Chairman: Jack Baker

Alternates: Scott Boisvert, Bob Wines

Spring Flood – April 2004
Scribner Road Dam

REPORT OF THE SOUTHEAST REGIONAL REFUSE DISPOSAL DISTRICT 53-B

Brentwood * Fremont * Hampton Falls * Kensington * New Castle *
North Hampton * Rye * Sandown * South Hampton

This Annual Report covers the period December 2003 to December 2004. This is in accordance with Section 2.7 of the District Agreement, which states that the District Committee shall hold an Annual Meeting on the first Tuesday of December each year to receive reports, choose officers, and appoint members to the Operating Committee.

The District Agreement states that the District's fiscal year shall commence on April 1 and shall end on March 31 of each year. The District Budget covers this fiscal period.

At the Public Hearing and Annual Meeting on December 3, 2003 the District elected the following Officers to serve from December 2004 to December 2005.

Chairman	Virginia Raub, Hampton
Secretary	Alfred Felch, Kensington
Treasurer	Joseph A. Melville, Hampton Falls

Virginia Raub moved in September and had to resign as Chairperson; She was a member of the 149-M Planning District and was a founding member 53-B District. This District will miss her. The office of Chairman will be filled at the Annual Meeting in December.

During the year the following new appointees were welcomed to the District committee: Douglas Cowie of Brentwood; Fred Rice of Hampton; Chris Ganatos of North Hampton; and David Cheney of Sandown.

The District continued its Recycling Grant Program for education and public relations. Member towns, which applied for grants, were Brentwood, Fremont, Kensington and North Hampton. The Septage Committee and Waste-to-Energy Committee continue to be inactive.

Brentwood, Fremont, Hampton, Hampton Falls, Kensington, New Castle, North Hampton, Rye, Sandown and South Hampton are currently tipping at Turnkey. In July, the current tipping fee of \$59.27 will be adjusted by Boston CPI at January 1, 2005.

This was the thirteenth year the District has conducted the Household Hazardous Waste program for the member towns. We held two collections – Hampton in the spring and Brentwood in the fall. The collection in Hampton was held on the second Saturday in May. A total of 359 cars attended the collection representing 289 households. On September 11, the collection was held in Brentwood for the fifth time. A total of 151 cars attended representing 177 households. The total cost for both collections was \$20,514. The per-household cost for Hampton was \$45.11, and the per-household cost for Brentwood was \$44.28. A grant from the State of NH, based on the population of

the District member towns, in the amount of \$5,700, helped to offset the costs. The remainder was paid out of District funds that had been budgeted for this purpose.

Based on the continued positive response we receive to these collections, the committee feels they are a vital function of the District and should continue. Citizens in our member municipalities continue to become more educated about household hazardous waste, have become familiar with the collections, and are willing to participate. The District has budgeted funds in the 2005/2006 Budget to hold collections in the spring and fall of 2005.

OBJECTIVES FOR THE UPCOMING YEAR

The Administrator portion of the District will continue to be a part-time operation. The Administrative Assistant's hours are from 8:00 am to noon Tuesday thru Thursday. The contract with Waste Management will continue to be administered by the District Office.

The Household Hazardous Waste Collections will be held in spring in Hampton on May 14, 2005 and the fall collection will be held September 10, 2005 in Brentwood.

Recycling education grants will again be awarded to District member towns. Recycling chairmen of the member towns are encouraged to apply for these grants. Information may be obtained by calling the District office.

We will continue to keep abreast of all refuse disposal and recycling methods, and we are always available to assist and/or answer questions from member towns and citizens. We will also continue to attend State level conferences on MSW and recycling.

Respectfully submitted,

Alfred Felch
Secretary

TOWN ADMINISTRATOR'S VIEW OF FREMONT IN 2004

Despite the chaos that end of year duties create, it is one of my favorite times in that it provides the opportunity to reflect on what has happened in the past 12 months. Watching Fremont grow and change has been an amazing phenomena during the past 10 years. As I begin year 11 in this position, it is incredible how the Town has evolved.

We have almost doubled our population since I came to Fremont in 1994. We have so many more roads, houses, and people. We are having trouble keeping up with the growth and demands it puts on town and school services, but we have a dedicated group of volunteers and town employees who work hard every day at making that happen as efficiently and positively as possible.

We welcomed back Selectman Peter Bolduc, who returned to the Board in March after a nine year break! We bid a fond farewell to six-year Selectman Richard Clark in March as well. We miss Rick's contributions, and his quiet and thoughtful demeanor. We wish him the best in some very challenging endeavors.

In April we contracted with MRI of Salem NH to undertake the Town's contract assessing work. This replaced the Town's agreement with former assessor Don Dollard. Scott and Mike Marsh are the primary assessors doing pickup work in Fremont. The revaluation will collect the 2004-05 pickup work, and the contract assessors from MRI are assisting the Town with the NH DRA Certification Process, as well as the regular assessing work involved with current use, sales analysis, and pickups after the revaluation period.

Our Memorial Day Services were one of the highlights of the year. Colonel Gary Stanley returned to Fremont as our Guest Speaker. He brought home a wonderful message that captivated the audience, and spoke of a life dedicated to mankind and service to this wonderful Country. We had a beautiful day, and huge masses of youth participation. We are so pleased to have Memorial Day be such an event for Fremont.

Fremont youth did some great things this year: Hannah Bass was Valedictorian of the Epping High School Class of 2004; Kristie Braley pitched a no-hitter in the final game of the year, Class L championship game; and Jeremy Peterson was honored for not missing a day of his high school career! Fremont is a wonderful place to live, and we have a lot of reasons to be proud of our town.

We undertook the first revaluation meeting this summer; with one data collector coming to town in late fall; a second joining him in December. They have been out measuring and listing all Fremont properties, meeting many of our residents. The process will not catch everyone at home the first try. The data collectors will try at least twice to catch people at home, and nearing the end of the data collection process, letters will be sent out to any property owner whose property has not yet had an interior inspection. It is within every person's rights to refuse them entry, but doing so changes what appeal rights you have, and makes for less than accurate data into the system.

Watch for continued updates in the newsletter of the progress and what you can expect. The summer months of 2005 will be very busy putting all of the information together. We began purchasing some of the computer equipment to be able to fully utilize the software packages, but still have much work to do in that regard.

Several volunteers left their positions this year, including John Whiteside, Brad Houston and Andy Anderson from the Conservation Commission; Karen Rivers from the Zoning Board of Adjustment; Ron Brown from the Planning Board; and Kevin Hussey resigned as the Town's representative to the Southeast Regional Refuse Disposal District. We thank these people for their time and service to Fremont.

In November's General Election, we saw a record 2,049 people come out to vote! The number of voters continues to increase as we see our population rise.

Just into 2005, Thom Roy also resigned from the ZBA after ten years as a member and the chairman. We welcomed Thom to a new role as the building Inspector and Code Enforcement Officer following the resignation of Paul Colby in November. We wish Paul well and welcome Thom to the position. Thom has already made some positive additions to the Town and our practices and procedures.

We would like also to mention Marilyn Baker, who had to resign from the Budget Committee for health reasons. Marilyn has served on the Fremont Budget Committee for many years, and continues to attend Planning Board meetings when she is able.

We learned near the end of 2004 that Betty Stanley would not be seeking reappointment as Deputy Town Clerk. While we are happy that she might be able to find time for travel and some leisure activities, we will greatly miss all she provided in her position. We all wish you the very best life has to offer and a wonderfully-deserved retirement!

Thank you so very much to all of Fremont's employees and town officials, and especially our many, many volunteers. Without all of you we could not accomplish as much as we do. We are always in need of more, as we watch our town grow. As I say every year, get involved in making Fremont the place you want to live and raise your children. There are so many ways to become involved and see what is happening in our busy town.

There are positions open on the Planning Board, Zoning Board of Adjustment, Parks & Recreation Commission, Conservation Commission. In some cases alternates are needed as well, and can be a way for new members to get involved with a bit less of an attendance responsibility.

We have seen continued increase in daily visits and telephone inquiries to the Town Offices and other town buildings. Thank you for your patience and understanding as we handle a multitude of requests in as timely a fashion as possible.

Some of our soldiers are coming home soon, and for this we are all relieved. Jason Larochelle is a Fremont police officer who has been in Iraq for just over a year. He is eager to return to patrolling the streets of Fremont, and we are hopeful this happens early in the spring of 2005. Rescue Squad member Don Gates III is also due home at the time of this writing. Our thoughts and best wishes are with all of the soldiers and their families as we hope for their safe and soon return.

We wish all of our soldiers and their families a safe return home. In the new year, vow to do something good for yourself, and take time for family and the things you enjoy.

Respectfully submitted,

Heidi Carlson
Town Administrator

"Do not waste time bothering whether you "love" your neighbor; act as if you did. As soon as we do this we find one of the great secrets. When you are behaving as if you loved someone, you will presently come to love him. If you injure someone you dislike, you will find yourself disliking him more. If you do him a good turn, you will find yourself disliking him less."

~ C S Lewis (1898 - 1963)

SCHOOL WARRANT
STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Fremont, New Hampshire, qualified to vote in District affairs:

You are hereby notified to meet at the Laurence Pettengill Hall, Ellis School, in said District on the 5th day of March 2005, at five o'clock in the evening to act upon the following subjects and to hear reports of agents, auditors, and committees or officers chosen and pass any vote relating thereto.

1. To see if the district will vote to approve the cost item included in the collective bargaining agreement reached between the Fremont School Board and the Ellis School Support Staff AFT Local #6223, NHFT, AFT-CIO, which calls for the following increases in salaries and benefits:

<u>School Year</u>	<u>Estimated Increase</u>
2005-2006	\$27,509
2006-2007	\$31,157
2007-2008	\$32,770

and further to raise and appropriate the sum of Twenty-Seven Thousand Five Hundred Nine Dollars (\$27,509) for the 2005-2006 school year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. (Majority vote required)

(Recommended by Fremont School Board)
(Recommended by Fremont Budget Committee)

2. To see if the school district will vote to expand the existing telephone system and to raise and appropriate the sum of Thirty Two Thousand Dollars (\$32,000) for this purpose, with such amount to be funded from the year end undesignated fund balance available on July 1. (Majority vote required)

(Recommended by Fremont School Board)
(Recommended by Fremont Budget Committee)

3. To see if the school district will vote to purchase the two modulars presently located at Ellis School and to raise and appropriate the sum of One Hundred Six Thousand and Two Hundred Dollars (\$106,200) for this purpose, with such amount to be funded from the year end undesignated fund balance available on July 1. (Majority vote required)

(Recommended by Fremont School Board)
(Recommended by Fremont Budget Committee)

4. To see what sum of money the District will raise and appropriate for the support of schools, for the payment of salaries for school district officials and agents, and for the payment of statutory obligations of the District. This article does not include appropriations voted in other warrant articles. (Majority vote required)

		Budget Committee Recommended	School Board Recommended
1100	Regular Education	\$3,697,522	\$3,713,522

5100	Debt Service	389,222	389,222
3100	Food Service	<u>88,249</u>	<u>88,249</u>
	TOTAL APPROPRIATION	\$7,711,075	\$7,853,074

(\$7,853,074 Recommended by the Fremont School Board)
(\$7,711,075 Recommended by the Fremont Budget Committee)

5. To see if the Fremont School District will vote to create a planning committee to study the feasibility of withdrawal from School Administrative Unit No. 14 and the advisability of establishing a School Administrative Unit in accordance with RSA Chapter 194-C. The plan is subject to school district approval. (Majority vote required)

(Recommended by Fremont School Board)

6. Shall the Fremont School District vote to discontinue the printing of vendor and salary history in the annual district report? (Majority vote required)

(Recommended by Fremont School Board)

7. Shall the Fremont School District approve the new charter recommended by the Charter Commission (the Charter will preserve the traditional School District Meeting but require that future bond issues and notes of the School District be voted on by official ballot voting following the procedures in official ballot voting communities (SB2))? (Majority vote required)

(Not Recommended by Fremont School Board)

Warrant Article No. 7 will be voted by ballot on Election Day, March 8, 2005.

8. To transact any other business which may legally come before this meeting.

NOTE: The above warrant is unofficial. The official warrant with changes, if any, will be posted at least fourteen days before the date of the meeting,

Given under our hands at said Fremont this _____ day of _____ 2005.

PLEASE PROVIDE FURTHER DETAIL:

* Amount of line 5252 which is for Health Maintenance Trust \$ _____ (see RSA 198:20-c, V)

If you have a line item of appropriations from more than one warrant article, please use the space below to identify the make-up of the line total for the ensuing year.

Acct. #	Warr. Art. #	Amount	Acct. #	Warr. Art. #	Amount

SPECIAL WARRANT ARTICLES

Special warrant articles are defined in RSA 32:3, VI, as appropriations: 1) in petitioned warrant articles; 2) appropriations raised by bonds or notes; 3) appropriations to a separate fund created pursuant to law, such as capital reserve funds or trust funds; 4) an appropriation designated on the warrant as a special article or as a nonlapsing or nontransferable article.

INDIVIDUAL WARRANT ARTICLES

"Individual" warrant articles are not necessarily the same as "special warrant articles". Examples of individual warrant articles might be:

1) Negotiated cost items for labor agreements; 2) Leases; 3) Supplemental appropriations for the current year for which funding is already available; or 4) Deficit appropriations for the current year which must be funded through taxation.

Line 8 plus any not recommended collective bargaining cost items or increases to cost items voted is the maximum allowable increase to budget committee's recommended budget. Please enter this amount on the bottom of the posted budget form, MS7, 27, or 37.

**FREMONT SCHOOL DISTRICT
SPECIAL SCHOOL DISTRICT MEETING**
Laurence Pettingill Hall, Ellis Elementary School
432 Main Street, Fremont, NH 03044
5 January 2004 - Minutes

Call to Order: The meeting was called to order by School District Moderator Gusti Buhrman at 7:20 p.m. Moderator Buhrman received a petition that the question being voted on tonight be voted by secret ballot. Moderator Buhrman also went over the rules for the meeting.

Introduction of the Board and Panel: Moderator Buhrman introduced the Fremont School Board. Present at the meeting were Joe Dreyer, School Board Chairman; Christine Kenneway, School Board Member; Marion Guidiboni, School Board Member; and Peg Pinkham, School Board Vice Chairman. Also introduced was Barbara Munsey, Superintendent of Schools; Kathi Picone, School District Clerk; and Gordon Graham, School District Attorney.

Moderator Buhrman proceeded to read the Special School District Meeting Warrant:

To see if the School District will vote to approve a tuition agreement with the Sanborn Regional School District for the education of Fremont School District high school students as negotiated by the School Board which, among other things, provides for an initial term of twenty (20) years beginning July, 2006 and calls for the payment of tuition based on the projected cost per pupil at Sanborn High School and the payment of capital charge based on the per pupil cost for bonds for Sanborn High School facilities and provides further for the submission of the agreement to the State Board of Education for approval pursuant to RSA 194:22. Please note, the agreement is contingent upon the approval of the agreement by the Sanborn Regional School District and the State Board of Education and the approval of bonding for a new high school facility by the voters of the Sanborn Regional School District at the annual meeting of March 2004. (Majority vote required).

A motion to move Article 1 was made by School Board Chairman Joe Dreyer, and seconded by School Board Vice Chairman Peg Pinkham.

Discussion on Article 1:

Chairman Dreyer welcomed and thanked the citizens who attended the meeting. Mr. Dreyer went over the purpose of the meeting which was to vote on a 20-year tuition agreement with the Sanborn Regional School District. Chairman Dreyer read a short statement. Chairman Dreyer suggested that they review the tuition agreement and go over the main points.

Chairman Dreyer stated that Paragraph 2 was the agreement between Sanborn and Fremont for a period of 20 years.

Paragraph 5 states that agreement will begin on July 1, 2006.

Paragraph 6A is the tuition calculation. Chairman Dreyer noted that we will be paying the same rate per student as the Sanborn District.

Paragraph 6B concerns financial records. Fremont will have access to all data, reports, records, and materials used to calculate costs billed to the Fremont School District.

Paragraph 6C and 6D are in all tuition agreements. It covers how tuition and special education costs are going to be paid.

Paragraph 6E concerns the capital costs that the Fremont School District will be paying to the Sanborn Regional School District.

Representative Bob Dodge had a question for the school board. The question concerned why we were not immediately forming a cooperative district?

Chairman Dreyer noted that the Sanborn Regional School District does not have a Cooperative Planning Committee in place. The steps to put together a committee take about a year. The general steps are to vote to approve a cooperative planning committee; a cooperative planning committee must be chosen; the districts need to meet to form the articles of agreement and then each town must meet to approve the articles of agreement.

The next question came from citizen Kevin Murnane concerning why we are in such a rush to get this done.

Chairman Dreyer stated the Kingston is proposing a new high school and we have been looking for high school placement. A UNH Study showed that the people of Kingston want Fremont back in the district. Mr. Dreyer noted that there were three representatives from the town of Kingston; Superintendent Jim Weiss, Mark Furlong and Kurt Baitz.

A point of order was called by a Fremont citizen concerning voting to see if someone other than a Fremont resident could speak.

Moderator Buhrman asked for a vote from the voting body to approve of representatives from Kingston being allowed to speak. Moderator Buhrman requested that all those in favor signify by saying aye. The request passed by Majority vote.

Mark Furlong gave some background information to the citizens of Fremont. The school proposal for their district was defeated last year. The Sanborn School Board had the UNH Survey Center conduct a survey of the Kingston residents. Two questions concerning Fremont were asked. The first question asked if voters wanted Fremont to come back to the district on a tuition basis. Eighty-five percent (85%) said yes. The second question asked if voters would like Fremont to come back and form a cooperative. Eighty (80%) said yes. From this information, the Sanborn School Board approached Fremont to discuss tuitioning our high school students. Trying to get a new school passed and forming a cooperative with Fremont was thought to be too much to get done in less than a year.

Fremont resident Mike Miller had a question. Would the Sanborn Board consider just tuitioning our students until the question of forming a cooperative comes forward.

Mr. Furlong stated that most new tuition agreements include capital costs so they were included in the agreement between Sanborn and Fremont. This allows for all towns to share the burden.

Fremont resident Mike Miller asked another question. He said that the Manchester School District allows sending towns the opportunity to get out of their capital costs agreements before the 20 years has passed.

School Board Member Chris Kenneway stated that Manchester School District requires the sending towns to pay the capital cost portion of the agreement even if they leave the district. There is not a district where a high school is being built that doesn't charge now for capital costs. The capital costs could be a benefit when Sanborn and Fremont look at this in forming a cooperative. Concerning why we didn't form a cooperative right away, the Sanborn School District is under the wire and if they don't pass the bond to build a new high school, the state could take away their approval status. There are so many questions involved in forming a cooperative that we didn't feel we had enough to put things together. Once we are in the agreement, we will have the time to negotiate certain issues.

Chairman Dreyer followed up the remarks concerning the 5 year intervals that towns with Manchester have in case other opportunities come along. Fremont has had no opportunities, so when we do get them, we should take them.

Paragraph 6E shows that the calculation being used is the same calculation used for Sanborn students charges.

Paragraph 10, Page 3 in the second paragraph of the agreement states that if the Sanborn Regional School District loses its accreditation, it will permit Fremont to leave the agreement.

Paragraph 11, Page 3 states that the Fremont School Board will meet with the Sanborn School Board two times a year in order that the Fremont School Board may give suggestions and recommendations on curriculum, financial matters, and policies in relation to Sanborn Regional High School.

Paragraph 19, Page 4 of the agreement states that within 5 years of the tuition agreement, towns must put forth on a warrant the formation of a Cooperative Planning Committee. This question for Fremont will be on a warrant at the March meeting. The Sanborn School District will not be putting the question on a warrant this year.

A Fremont resident asked about the way the warrant article was worded. He is concerned about the part that states "the approval of the bonding for a new or renovated high school facility". Shouldn't that be stricken from the article?

Mr. Baitz of Kingston stated that at the time this contract was negotiated, the town hadn't decided whether they were going to go with building a new high school or renovating the existing high school.

The citizen had another question stating that wouldn't the right thing to do be to strike it from the agreement.

Mr. Furlong stated that the board voted to go forward with a new high school facility but at the time they were negotiating the board didn't know what direction they were going in. Mr. Furlong stated that we could amend the article and strike the "or renovated" from the warrant.

Chairman Dreyer stated that if Sanborn renovated a building that Fremont students weren't attending, how the district would calculate the costs because the capital costs are based on the amount of Fremont students attending the high school.

School Board Vice Chairman Peg Pinkham stated the question without the "or renovated" and requested to strike it from the agreement.

Moderator Buhrman stated that we could vote on the change now. The motion was made by Vice Chairman Peg Pinkham. Marion Guidiboni, School Board Member seconded the motion.

Moderator Buhrman asked for discussion. Being none the vote was taken.

Moderator Buhrman requested that all those in favor of amending the warrant to strike "or renovated" from the warrant signify by saying aye. The amendment to the warrant passed by Majority vote.

The same Fremont citizen wanted to know what the bottom line cost is to Fremont for sending our high school students to Sanborn Regional High School.

Chairman Dreyer asked citizens to look at the purple sheet. The capital costs are \$10,362,731 over the 20 year life of the agreement. He stated that this is the capital cost, not the tuition cost.

Superintendent Munsey discussed the pink spreadsheet. Superintendent Munsey went over the calculation formula used to obtain the capital cost figure. Regardless of where a student resides (Fremont, Kingston, Newton) the capital costs will be the same per student.

Next, she went over the complicated steps taken to obtain a tuition figure. It is based upon many things including minimum standards, special education costs, and collective bargaining agreements. Superintendent Munsey took projected cost figures for a Fremont Middle/High School and compared them to projected tuition costs for students in grades 9-12 at Sanborn. Superintendent Munsey stated that the five year projection is the best projection to look at. If you look at the difference, Sanborn is going to save money concerning our budget. Based on the figures, she stated it would cost approximately \$400,000 to \$500,000 more per year to educate students at a Fremont Middle/High School.

Fremont resident Mike Miller had a question. Looking at the \$11,400,000 for the middle/high school, how many students that would have housed? Also, looking at the Sanborn agreement, he states that the capital costs must be based on a certain number of students and would that change if the student population to Sanborn went up?

Superintendent Munsey stated that the more students you have the capital costs will decrease with the increase in population because they are spread out over the population. Also, the more students you have the more programs you can provide at a cheaper cost. For example, if the town of Newton has a population explosion, they would pay more in capital costs because they would have more students from Newton attending Sanborn Regional High School.

Fremont resident Mike Miller asked that the \$11,400,000 building was being proposed for a certain population. How long do you think that would last?

Superintendent Munsey replied that Frank Marinace estimated that a cost for a building would be around \$12,000,000 with a population of 550. She asked if Mr. Miller was looking for a core number?

Mr. Miller replied that there was a certain student population that the capital costs were calculated on, especially in the first year. He said he wanted to know the maximum population of the middle/high school students would that have housed?

Superintendent Munsey replied it was still the 550 figure. She asked what the student count was for the proposal his group brought forward? Then she stated for us it was a 180 and if we were building a high school in town the number would be the same.

Fremont citizen Audrey Karamourtopoulos asked if the Fremont Budget Committee was supportive of the tuition agreement? She stated that there was a possible proposal for an Ellis School addition and asked if the Budget Committee could project in the next 5 years what we have to do to this school and stated if we are spending \$10,000,000 for Sanborn- what are we going to have to add in capital costs?

Moderator Buhrman asked if there was someone in the audience from the Budget Committee who would like to address the question?

Vice Chairman Peg Pinkham stated that she is the school board representative to the Budget Committee. She stated that the budget season is just getting started and the figures are still coming in. She invited anyone from the budget committee in attendance to come up.

Fremont resident Cheryl Hastings asked are we spending the money that would be given to Sanborn to educate our students now?

Chairman Dreyer addressed the question. We pay several different rates to several different towns. Because we do not have a tuition agreement with any of the schools, we have no control over the rate. Basically, we pay whatever they want. He stated that there was a choice tonight with the tuition agreement. He also stated that if we continue to place our students on a yearly

basis, we put the students where we can find placement and we pay whatever the other town wants. The school budget is up this year by \$225,000 because of an increase in tuition costs that we have no control over.

Fremont resident Audrey Karamourtopoulos had concerns about the fact that the Budget Committee is supposed to advise the residents and yet did not have the information to advise us so how can we vote on the question? She asked if the committee could talk about what was coming because not only is there a possible addition but tuition costs and 10.4 million is capital costs and feels the Budget Committee needs to address this.

Vice Chairman Peg Pinkham stated that the Budget Committee votes to either support or not support and then the town makes the decision. The voting populace gives the direction. The Budget Committee is an advisory committee. She also stated that there is a provision in the agreement that there is a penalty and money is returned to the town if they don't move forward and pursue a cooperative. She also stated there is no school in the area who could take us without putting on an addition. She doesn't believe that a school would put on an addition and invite Fremont students to attend without capital costs.

Fremont resident Dave Savard stated that we are currently paying between \$7,000 and \$9,000 in tuition per student. He then referred to the pink spreadsheet and for the year 2008-2009 we are paying \$2,155,000 in tuition for 180 students and he calculated \$12,000 per student for tuition. Looking at the same year at capital costs, the cost is \$551,000 for 180 students or \$3,061 per student for a total cost of \$15,000 per student. Is this the correct figure? As a follow-up he wanted to know if there was any state aid for the 28% we are going to pay for the school?

Chairman Dreyer stated that the column that says Projected Tuition includes the capital costs. So if you take the \$12,000 (estimated) figure and subtract the \$3,000 (estimated) capital costs you get the \$9,000 tuition cost.

Superintendent Munsey went over the pink spreadsheet to show what figures included the capital costs and others which did not. She told the body to be careful when looking at the NH website concerning average costs per student because they do not include debt, tuition, and transportation. She also stated that Fremont does benefit from the state aid that Sanborn will receive in aid. The Sanborn School District will receive 40% in state aid for the building.

Fremont resident Yvonne Ouellette commented on the fact that there is a lot of comparing between if we build our own or if we tuition. The last 4 years have indicated that Fremont does not want to build its own high school and it is just not an option so it is an irrelevant point. She asked if we want to continue to scramble year after year for placement of our students and not know what we are going to pay in the future or if we want to know where are children will be going and at what cost. It is unlikely that a high school is going to build an addition and ask Fremont to come and attend the school. She stated we will be coming back year after year debating the issue.

Chairman Dreyer stated that the only reason the comparison is on the sheet is because someone at the forum requested the information.

Fremont resident Ray Bernier thanked the board and everyone for coming and called the question.

Moderator Burhman asked the voting body if they were ready to end discussion on the warrant to signify by saying aye. The Majority voted aye. Moderator Buhrman read the warrant to the body and released them to vote.

Moderator Burhman called the meeting back to order. Yes votes totaled 190. No votes totaled 40. Article 1 passed by Majority vote.

Chairman Dreyer made a motion to restrict reconsideration of the warrant. Vice Chairman Peg Pinkham seconded the motion.

Moderator Buhrman explained to the voting body what restricting reconsideration means.

Moderator Buhrman asked the voting body all those in favor of restricting reconsideration signify by saying aye. Motion passed by Majority vote.

A motion to adjourn was made by Member Chris Kenneway and was seconded by Vice Chairman Peg Pinkham. Motion.

Moderator Burhman asked all those in favor of adjourning the meeting signify by saying aye. Motion passed by Majority vote.

Moderator Buhrman adjourned the Special School District Meeting at 9:15 p.m.

Respectfully Submitted By:

Kathi Picone
Fremont School District Board Clerk

"Education should have two objects: first, to give definite knowledge, reading and writing, language and mathematics, and so on; secondly, to create those mental habits which will enable people to acquire knowledge and form sound judgments for themselves."

~Bertrand Russell (1872 - 1970) Sceptical Essays, 12, 1928

"Not art, not books, but life itself is the true basis of...education."

~ Johann Heinrich Pestalozzi (1746 - 1827) ~ The Education of Man: Aphorisms

**FREMONT SCHOOL BOARD
SCHOOL DISTRICT MEETING**
held at the Laurence Pettingill Hall, Ellis Elementary School
432 Main Street, Fremont, NH 03044
6 March 2004 - Minutes

Call to Order: Fremont School District Moderator Gusti Buhrman called the Meeting to order at 5:20 p.m.

Meeting Rules: Moderator Buhrman went over the rules of the meeting.

1. You must be a registered voter with the town of Fremont.
2. The meeting is to be fair and everyone is to be treated equally.
3. All remarks are to be made through the Moderator.
4. If you wish to speak, raise your hand and the Moderator will recognize you. Go to the microphone and state your name for the School District Clerk and ask your question.
5. If you would like to speak, but you have already spoken, let other people with questions have an opportunity for a first question.
6. There is to be no name calling or use of profanity
7. If there is an amendment on the floor, we will resolve it before we entertain another amendment.

Introduction of the Board, Panel, and Guests: School Board Chairman Joe Dreyer, Member Christine Kenneway, Vice Chairman Peg Pinkham, Member Marion Guidoboni, Member Lisa Begley (away on active duty in the military), SAU #14 Superintendent Barbara Munsey, SAU #14 Business Administrator Toby Eaton, Ellis School Principal Joann Boddy, SAU #14 Legal Council Gordon Graham, and School District Clerk Kathi Picone. Three guests were present. They were Frank Marinace, Architect; Peter Francese, Demographer, and Eric Weinreese, Civil Engineer. Also present is Representative Bob Dodge.

Moderator Buhrman asked the voting body, all those in favor of allowing the 3 guests to speak, indicate by saying aye. No one opposed.

Chairman Joe Dreyer made opening remarks. He thanked the voting body for attending the meeting. Mr. Dreyer spoke of Lisa Begley, Fremont School Board Member, being on active duty in the Middle East. He also encouraged the body to help families who are at home while a loved one is away. He encouraged the body to hope and pray for the return of friends, fathers, mothers, brothers, sisters, sons and daughters.

Point of order was made by Fremont citizen Mike Miller to Moderator Buhrman. Mike Miller requested that the School District Clerk read the minutes from the January 5, 2004, Special School District Meeting.

Moderator Buhrman asked the voting body all those in favor of hearing the minutes read from the previous meeting, signify by saying aye. Opposed? The nays have it so they will not be read.

Fremont resident Mike Miller indicated to Moderator Buhrman that decisions were going to be made tonight based on the decisions made from the January meeting.

Moderator Buhrman indicated that the body had voted not to hear them. Mike Miller stated he would like to complain as a citizen because we need to know what was decided on from the meeting before we move on. Moderator Buhrman stated that she believed the voting body has a good idea and know what was voted on at the meeting.

Member Guidiboni made an announcement that a survey would be going out to middle school parents by NELMS. She stated that it is a very important study and would appreciate the parents returning the surveys as soon as possible.

***To the Inhabitants of the School District in the Town of Fremont, New Hampshire
qualified to vote in District affairs:***

You are hereby notified to meet at the Laurence Pettengill Hall, Ellis School, in said District on the 6th day of March 2004, at five o'clock in the evening to act upon the following subjects and to hear reports of agents, auditors, and committees or officers chosen and pass any vote relating thereto.

ARTICLE 1. To see if the District will vote to raise and appropriate the sum of Two Million, Three-Hundred-Eighty Thousand Dollars (\$2,380,000) for the construction and original equipping of an elementary school addition on land of the District, and to authorize the issuance of not more than Two Million, Three-Hundred-Eighty Thousand Dollars (\$2,380,000) of bond or notes in accordance with the provisions of the Municipal Finance Act (RSA Chapter 33) and to authorize the School Board to issue and negotiate such bonds or notes and to determine the rate of interest thereon and the maturity and other terms thereof, and further to raise and appropriate the additional sum of Fifty-Seven Thousand, Thirty-Seven Dollars (\$57,037) for the first interest payment on the bond, and furthermore to authorize the School Board to apply for, accept and expend federal, state and/or other aid which may be available for the project and to authorize the School Board to take any other action necessary to carry out this vote. (Each year over the term of the bond, the principal payment will be offset by 30% building aid.) (2/3 Ballot vote required)

The polls will be open for 1 hour after discussion of the warrant. This article is recommended by the Fremont School Board and is recommended by the Fremont Budget Committee.

The question was moved by Vice Chairman Peg Pinkham and seconded by Member Chris Kenneway.

Vice Chairman Peg Pinkham addressed the voting body to explain the motion. Vice Chairman Pinkham gave a brief overview of what has happened since the last School District Meeting. With the failure of the 13 room addition, the Board received feed back from the public. Some of the reasons included that the Ellis School site would be over taxed with the size of the addition and \$4.3 million dollars for an addition was just too much and other various reasons were given. With this information, the school board studied what the needs are today and in the future. A

demographer was hired to ensure accuracy. The school is at 100% capacity and when a school is at 85% capacity education is adversely affected. Projections for the 2012-2013 concluded that we will have 515 students. With education funding cut and operation costs increasing and the school population growing, there will be a substantial loss of revenue. With an 8 room addition at the cost of \$2.3 million dollars it will support our current needs and help in future growth. With the site work that will be done, we will double our parking capacity to 112 and improve the field. The septic will have a capacity of 609 and the addition provides for 500 students with a class size of 20 per class. The addition would be ready in December, 2004.

The board also looked at the cost of a stand alone middle school. The estimate from Frank Marinace was \$10,000,000 dollars. The current middle school population is 150 students and does not make this a cost effective or educationally sound step at this time. Also we would be duplicating many of the operational costs which are a large portion of the school budget. In 10 to 12 years we can look at building a separate middle school as a cooperative or on our own leaving the current space well suited as an elementary school. If we look at the modulars, it is a one year fix and doesn't address the septic or parking situation. The cost to add one modular is \$100,000 with a rent of \$20,000 per year. With the addition, the first year tax impact will be \$.21 cents per thousand. In the second year, which is the highest amount, the tax impact will be \$1.03 per thousand and the bond will be retired in 10 years. The tax impact for another modular is \$.48 cents per thousand with an accumulated tax impact for all at \$1.24. The Board believes the addition will serve the students and community for the next 10 years while keeping the tax impact to a minimum. The Budget Committee does recommend this.

Vice Chairman Peg Pinkham introduced the demographer Peter Francese. Mr. Francese stated that he does approximately 20 to 25 demographic studies a year. He stated that the folks he did the study for had a clear understanding of what is likely going to happen even before he arrived. He was surprised at how close in harmony what the school board is planning with the future growth of Fremont.

He stated that Fremont shouldn't be fooled by population growth. Fremont was the 16th fastest growing town in New Hampshire during the 1990's but only added about 300 households in the town. Of those, 100 had children. He stated 44% of households in Fremont have children, which is in the minority. He believes that will decline as a percentage to 36% which is the average for Rockingham County. The number of students in Fremont will increase but at a very modest rate. He stated he is not anticipating rapid growth in Fremont, Rockingham County or NH. New England has an aged population and housing is being restrictive to 55 and older. If NH continues to do this, the growth of young people will be modest if at all. He stated that the Board is in perfect harmony with what is likely to happen in the future. Approximately 1,000 people per month are coming to New Hampshire but all those people do not have kids. Young people are leaving due to the cost of housing. You will see modest growth in the future.

Vice Chairman Peg Pinkham introduced Frank Marinace, architect of the 8-room addition. He stated the Board asked him where the best place was to put an 8-room addition. Mr. Marinace stated that the best place is also the most efficient and economical. He stated the big blank wall because building against it would not increase the perimeter of the school by a lot. The goal of any addition is to have a high percentage of classroom space and a less percentage of circulation

space. He stated that this addition had a high percentage of classroom space and a low percentage of corridor and stairwell space.

Vice Chairman Peg Pinkham introduced Eric Weinreese, Civil Engineer. He went over the site improvements. The buses would access through the Beede Hill site and come around and out through to Main Street. This will segregate bus from parent traffic. They will create a new, long straight area to drop off children at school which will make it a much safer site. Parking spaces will be increased to 130 compared to the current 68 spaces. A 180 by 350 playing field will be shifted towards the back of the property and a new septic system will have a capacity for 609 occupants. Vice Chairman Peg Pinkham added that the addition would have a lot of natural light thus improving the educational facility.

Vice Chairman Pinkham introduced Member Chris Kenneway. Member Kenneway stated that Ellis School operates by using all existing rooms including vestibules and hallway areas. The 8-room addition along with the site work would allow for education to return to the classrooms. The Board envisions for classroom use during the first years of the addition first and second grade occupying the addition (see page 9 of green sheet). As the school grows and we possibly remove the middle school students, the space could be used for first grade, preschool, a transitional first grade, and if the school district desires, possibly kindergarten classrooms. You can see where the 2nd, 3rd and 4th grade classes would be along with the art and music rooms which will not be on a cart.

The alternative to the 8 room addition is to add a third modular next year and possibly a fourth modular the year after. The 3 moduls would provide 6 classrooms. If you look at the net cost for the bond with an 8 room addition including interest and building aide being considered the cost is \$2,212,648.00 (see the bond schedule on the yellow page). If you look at the cumulative tax cost over the next 10 years for the moduls the cost will be almost \$1,000,000 for 3 moduls. The modular cost is a cost without end, and we will continue to lease with possibly a fourth modular with possibly only a \$500,000 difference between the addition and the moduls. The moduls do not address the problems with the septic and parking.

Moderator Buhrman asked if there was additional discussion on Article 1.

Representative Bob Dodge came forward. He stated that at the meeting he recently went to that it was stated that kindergarten would soon be mandated by the State. Mr. Dodge stated that he spoke to the Chairman of the Board of Education to find out about it. Article 28A states that the State cannot mandate something without being able to pay for it. He stated that there would be no mandated kindergarten. After stating some of the legislative procedures, the year 2009 was stated as a possibility of state wide kindergarten. He impressed upon the voting body that there will be no mandated kindergarten in the near future. Secondly, he stated that there will be state aid for the addition at about 30 percent. With a single building it is 30%, with 2 towns it is 40% and with 3 towns it is 45% but we are not doing a cooperative.

Member Kenneway thanked Representative Dodge. Mr. Dodge was kind had pointed out the forum that the Board might be giving the impression that kindergarten was going to be mandated but the school board is aware that the legislature makes the decisions on this. Member

Kenneway asked the voting body to see Page Two of the handouts where they addressed the issue to clear up any questions.

Fremont citizen Audrey Karamourtopoulos asked if with putting on the 8 room addition are we getting rid of the portable out front? She asked if it was a double unit? She stated that we have 6 rooms to deal with and no art room and music room so now 2 more rooms are taken away from the 8 rooms? There are two portable rooms, a music and art room, so the 8 room addition is giving us 4 classrooms?

Member Kenneway asked Audrey Karamourtopoulos and the voting body to see Page 9 of the handout to see where the grades would be placed along with the art and music room.

Audrey Karamourtopoulos stated that she would like to know how many classrooms we will be gaining with the addition? She stated that there would be the loss of the art room, music room, and 2 portable classrooms so that will leave 4 classrooms for the next 10 years?

Vice Chairman Peg Pinkham responded by stating that there would be 8 rooms and 2 less portable classrooms leaving 6 rooms. Last year there were 13 rooms proposed with 8 classrooms in the proposal. The public stated they didn't want the renovations but the classrooms. The addition will be providing a permanent structure that meets the needs for today and future needs. The next solution will be a modular unit in the next warrant article.

Moderator Buhrman asked if there was anyone else who had a question?

Citizen Kathy Sonia stated that the issue of kindergarten was immaterial to the issue we are voting on this evening. We are voting on an addition to the school for the existing population.

Citizen Raymond Bernier stated he has heard the figure 609 total for the facility. What is the maximum amount the school can hold with student, school teachers and school personnel?

Vice Chairman Peg Pinkham said the 609 figure is for the septic system and does include the school teachers. Yes, it does include everyone employed at the school. The classroom space that the board would like to see is 20 per classroom. The school is experiencing very slow growth in the student population and we are not seeing it in the school facility. The current facility is at 100% when it should be at 85%. The current school is designed for 388 and we now have 450 students. The 609 number is what the new design will support. She stated that she hoped in the future that the town would support kindergarten and that the septic system would not be utilized all at the same time. This is not just something we need for the future but we are years behind in for today.

Citizen Lisa Magnusson asked how many 6th grade students we currently have? How many classrooms currently house the 6th grade students? How many students are currently in the 6th grade? Chairman Dreyer stated that we have 56 6th graders. One classroom has 27 and one classroom has 29.

Citizen Mary Anderson, Fremont Tax Collector and resident, stated if all warrant articles pass this evening we're looking at between \$4.50 per \$5.50 per thousand on the tax rate or \$450 to \$500 per \$100,000 not counting the warrant article on the long-term agreement with Sanborn and not counting the town last week. These figures come from the Budget Committee Report and the town report. The school population in Grades 1-8 in the last 4 years has increased by 6 students. This information comes from the Oct 1st Enrollment Report submitted to State Department of Educations School District Profile. In 1999-2000 we had 416 students and in 2003-2004 we have 422 students. She asked how can the school all of the sudden run out of space with 6 new students and adding two modulars? Is one of the reasons that the class size is down to 20?

Superintendent Munsey stated that she went through the past minutes of Fremont School Board Meetings and came upon a demographic study in 1994 with projections that showed we were already above 85% capacity and past 100% capacity and in 1994 we didn't have enough classrooms and would have to lose an art room and music room. This is an issue that the town has been dealing with since 1994.

Citizen Anderson stated that the capacity rate being used is based on 20 students per classroom although right now not running at 20 students per classroom. Once the addition is completed we will have 20 students per classroom?

Superintendent Munsey stated that we're trying to have classroom sizes at 20 but some classrooms will be a little lower and some will be a little higher. The Department of Education is looking at the minimum standards and is looking to reduce class size to 15 in the primary grades. This poses a major facility issue for the state and is considered an unfunded mandate. The Department of Education states that we should be looking at class sizes of 15 but we are looking at class sizes of 20.

Citizen Anderson had a point of clarification to state that class sizes of 15 are recommended through Grades 1 to 3 and that Fremont and other towns could not afford class sizes of 15 in Grades 4 to 8.

Member Marion Guidoboni stated that parents at the beginning of the year asked why our current 6th graders are crammed into 2 classrooms? Students are learning out in the hallways and can't complete projects in the classrooms because they are too crowded. When there are disturbances in the hallway, the sounds resonate throughout the school. It is not an optimal learning environment. A third 6th grade being proposed and a third 4th grade to address some of the space issues. She stated we should think about our children as they will be our future engineers, musicians, scientists, construction workers, and police. Without giving them the right education, we are short changing them.

Representative Dan Itse asked for clarification. He stated that the current 6th grade occupies 2 rooms. Do the other grades occupy 2 rooms each? How many classrooms does each grade occupy? Chairman Joe Dreyer responded. We have 2 preschool classes, 4 first grades, 3 second grades, 2 third grades, 3 fourth grades, 3 fifth grades, 2 sixth grades, 2 seventh grades and 3 eighth grades.

Representative Itse stated that we are adding 4 grade classrooms. Will this require the addition of teaching staff? Chairman Dreyer stated that the additional staff is included in the Fremont School Budget which we will be looking at later.

Citizen Linda Zukas stated we need to give the students all the programs we can and called the vote through Moderator Buhrman.

Moderator Buhrman stated that the question has been called. The vote will be whether or not to call the question. Moderator Buhrman stated that the question has been called and all those in favor of calling the question, signify by saying aye. Opposed to calling the question? Motion passed by Majority Vote.

Moderator Buhrman stated that there are 3 lines according to the alphabet. This is a ballot question and the polls will be open for an hour. Moderator Buhrman read the article before voting began. Two-thirds majority vote is required. Voting began at 6:20 p.m.

Moderator Buhrman called the meeting back to order at 7:10 p.m. The meeting will continue until the results of Article 1 are given.

ARTICLE 3. To see if the District will vote to approve the cost item included in the collective bargaining agreement reached between the Fremont School Board and the Ellis School Support Staff for the 2004-2005 school year and further to raise and appropriate the sum of Fifty-One Thousand, One Hundred Ninety-One Dollars (\$51,191) for the 2004-2005 school year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. (Majority vote required). (Recommended by Fremont School Board) (Not Recommended by Fremont Budget Committee)

Chairman Dreyer made a motion to move the article. Member Kenneway seconded. Moderator Buhrman asked for discussion.

Chairman Dreyer asked voting body to go to page 14- the orange page. The Support Staff at the Ellis School voted to unionize. The negotiation team was made up of Chairman Dreyer, Member Kenneway, Superintendent Munsey, and a professional negotiator. Chairman Dreyer went through the benefits and costs. It is a one-year agreement to get it out of sequence with the three-year teacher's contract and allows for a change in the agreement if we find after one year that there needs to be changes. He went over the cost breakdown and estimated tax impact.

Moderator Buhrman asked for further discussion.

Citizen Ray Bernier stated that the Budget Committee did not recommend this and asked a member of the Budget Committee to come forward and explain why this article was not recommended.

Budget Committee Member Thom Roy came forward and stated that the Budget Committee was not comfortable with recommending Article 3 because of the individual dental coverage that is being proposed in the agreement.

Chairman Dreyer stated that if we vote no we still have to go back and negotiate and by law we are obligated to negotiate.

With there being no further discussion, citizen Ray Bernier called the question.

Moderator Buhrman asked all those in favor of stopping debate signify by saying aye. Motion passed by majority vote. Moderator Buhrman read Article 3.

Moderator Buhrman requested that all those in favor of Article 3 signify by saying aye.

Article 3 passed by Majority vote.

ARTICLE 4. To see if the District will vote to approve the cost item included in the collective bargaining agreement reached between the Fremont School Board and the Fremont Education Association which calls for the following increases in salaries and benefits:

<u><i>School Year</i></u>	<u><i>Estimated Increased</i></u>
<i>2004-2005</i>	<i>\$110,425</i>
<i>2005-2006</i>	<i>\$108,556</i>
<i>2006-2007</i>	<i>\$113,348</i>

and further to raise and appropriate the sum of \$110,425 for the 2005-2006 school year , such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. (Majority vote required). (Recommended by Fremont School Board) (Not Recommended by Fremont Budget Committee).

Chairman Dreyer made a Motion to move Article 4. Member Kenneway seconded the motion.

Chairman Dreyer referred the voting body to Page 15 – lilac sheet. The teacher’s contract is up for renegotiation. The negotiation team was made up of Chairman Dreyer, Member Kenneway, Superintendent Munsey, and a professional negotiator.

He asked the voting body to refer to statistics portion of the handout. He went over the minimum and maximum salary levels along with the state and regional averages noting that we are about 10% below the Regional Average Salary for a minimal level teacher and 15% below the Regional Average Salary for a maximum level teacher.

Chairman Dreyer referred to the Benefits Portion and went over the percent raises that would be given over the three year period plus step. This is an attempt to bring the district closer to what

the state averages are to attract teachers to our school. Of special note by Chairman Dreyer was the \$150 incentive for perfect attendance by the teacher, increased amounts for workshops and course reimbursements, and a reduction in district health insurance contributions. Also, the JY Plan will not be an option for any incoming teachers, thus transitioning the plan in years to come. Chairman Dreyer went over the cost breakdown and estimated tax impact. If we vote no, we go back to the negotiation table.

Moderator Buhrman stated that it was 7:20 p.m. and that the polls have been open for more than an hour. She checked to ensure the voting body had all voted and announced the polls were now closed.

Budget Committee Member Thom Roy stated they did not approve this because of the increase of over \$330,000 over 3 years in the budget plus salary increases and step increases that equaled 7% .

Citizen Glenn Smith asked Superintendent Munsey to explain the Evergreen Clause which is a step up increase without a percent increased. Mr. Smith stated that we should skip three years because when he was on the School Board they gave an aggressive increase to the teachers that brought the salary levels up to where they needed to be. Mr. Smith stated that he does support teachers but the School Board was generous at previous negotiations and requested that Superintendent Munsey address the voting body concerning this.

Superintendent Munsey stated that if we do not pass this contract, teachers will remain at the current level and will not receive a step increase.

Citizen Glenn Smith asked for clarification stating that when they go back to negotiations if the teachers receive a zero percent increase, then they would be able to get receive their step?

Superintendent Munsey stated that it would have to be brought before the voting body and say that they got a zero percent increase and yes - then they would receive a step plus a zero percent increase.

Chairman Dreyer stated that even if we vote no there will still be an increase because we are bound to the previous contract and still have to provide healthcare insurance and provide it at the current rate.

There was no further discussion. **Moderator Buhrman requested that all those in favor of Article 4 signify by saying aye.**

Article 4 passed by Majority vote.

ARTICLE 5. To see if the District will raise and appropriate Six Million, Eight Hundred and Ninety Nine Thousand, Eight Hundred and Ninety Three Dollars (\$6,899,893) for the support of schools, for the payment of salaries for school district officials and agents, and for the payment of statutory obligations of the District. The article does not include appropriations voted in other warrant articles. (Majority vote required).

	Budget Committee Recommended	School Board Recommended
1100 Regular Education	\$3,311,268	\$3,327,580
1200 Special Education	1,471,042	1,471,042
1300 Vocational Education	0	0
1400 Other Programs	23,146	23,146
2110 Attendance	1	1
2120 Guidance	38,373	53,080
2130 Health	30,464	30,464
2140 Psychological	59,775	59,775
2150 Speech & Audiology	98,569	147,971
2160 Physical & Occupational	98,956	124,358
2210 Improvement of Instruction	28,669	33,304
2220 Educational Media	145,056	150,855
2310 School Board	50,692	58,449
2320 Offices of Superintendent	150,576	150,576
2330 Special Ed. Administration	99,666	104,408
2400 School Administration	223,437	223,437
2600 Operation of Plant	217,290	239,807
2700 Student Transportation	369,084	385,996
2900 Support Benefits	111,615	171,927
4000 Facilities	24,331	24,331
5100 Debt Service	64,880	64,880
3100 Food Service	74,586	74,586
TOTAL APPROPRIATION	\$6,691,396	\$6,889,893

(\$6,899,893 Recommended by the Fremont School Board)
(\$6,691,396 Recommended by the Fremont Budget Committee)

Vice Chairman Peg Pinkham made a motion to move Article 5. Member Marion Guidiboni seconded.

Vice Chairman Peg Pinkham addressed the voting body. Refer to pink portion of the handout. She went over what controllable and uncontrollable costs are. Controllable costs like transportation, support services and staffing is the majority of budget. In order to meet the Budget Committee's recommended figure there would be a reduction in staff and a possibility of cuts in high school transportation. Health insurance costs increased by \$136,764 and the high school tuition amount increased. Transportation increased by \$34,000 and support benefits increased. There is a decrease in the amount of funding we will receive by the state adding \$4.00-\$5.00 to the tax rate but \$2.53 of the increase is directly reflected in lost revenue. A lot of money was taken away from us by House Bill 608.

Budget Committee Member Thom Roy asked to make an amendment to the budget and to the Budget Committee amount of \$6,691,396. This number represents a 5% increase over last year's number or \$200,000 less than what the school board is requesting.

Vice Chairman Peg Pinkham made a motion to amend Article 5 to the figure of \$6,691,396. Seconded by Fremont Citizen in the voting body.

Moderator Buhrman asked if there was discussion on the amendment?

Superintendent Munsey referred to page 6 in the handout. In regular education there is a \$16,000 difference and will be a reduction in staff. Other differences included guidance because the counselor is experienced. Other areas are speech and audiology, physical and occupational, and transportation. They are Special Education expenses and cannot be cut so they will be paid anyway. We are looking at a \$200,000 difference in budgets so the reduction will be taken in staff.

Citizen Paula Wall asked why there was such a big difference between the Budget Committee's Recommendation for support staff and the School Board's figure for the support staff?

Superintendent Munsey stated several reasons for the difference and that the cuts will not come from support staff but from somewhere else.

Citizen Ray Bernier asked Principal Joann Boddy to speak on the issue.

Principal Boddy stated that the figures include the teacher's contract and the addition of two teachers. The teachers would be added in the 6th grade and 3rd grade. She spoke on the issues of the guidance counselor, transportation and maintenance and the reasoning for the increases.

Citizen Yvonne Ouellette addressed the voting body on several issues concerning the students and the impact of the budget on them.

Representative Itse asked if we go with the Budget Committee's Recommendation isn't it contingent on the result of Article 1?

Moderator Buhrman gave the results of the vote for Article 1. There were 162 Yes Votes and 50 No Votes for a total of 212 Votes. There needed to be 141 votes to pass. Article 1 passes with a two-thirds Majority vote.

There was a motion to end discussion on the amendment of the school budget by a Fremont citizen and seconded by a Fremont citizen.

Moderator Burhman requested all those in favor of ending debate on the amendment signify by saying aye. Motion passed by Majority vote. Moderator Burhman read the amended article.

The amendment amount is \$6,691,396. Moderator Burhman requested all those in favor of the amended article, signify by saying aye. Those opposed to the amendment signify by saying naye. The motion was not passed.

Moderator Burhman read Article 5 in the amount of \$6,899,893. Moderator Buhrman requested all those in favor of Article 5 signify by saying aye. Motion passed by Majority vote.

Chairman Dreyer requested a motion to restrict reconsideration on Articles 3, 4, and 6. A Fremont citizen seconded the motion.

Moderator Burhman requested those in favor of restricting reconsideration for Articles 3, 4, and 5 signify by saying aye. Motion passed by Majority vote.

Vice Chairman Peg Pinkham made a motion to table Article 2. Seconded by a Fremont citizen.

Moderator Burhman requested all those in favor of tabling Article 2, signify by saying aye. Motion passed by Majority vote.

ARTICLE 6. To see if the Fremont School District, pursuant to RSA 195:18 will vote to create a Cooperative School Planning Committee consisting of three qualified voters of whom at least one shall be a member of the School Board, and to see if the District will vote to authorize the School District Moderator to appoint the members of the committee. (Majority vote required). (Recommended by the Fremont School Board)

A Fremont resident motioned to move Article 6. Vice Chairman Pinkham seconded. Member Kenneway addressed the voting body as to the reasons for the Cooperative School Planning Committee.

Moderator Burhman requested all those in favor of Article 6 signify by saying aye. Motion passed with Majority vote.

ARTICLE 7. Shall a charter commission be established for the sole purpose of establishing official ballot voting under the current form of government? (Majority vote required). (Recommended by the Fremont School Board)

Member Marion Guidoboni addressed the voting body stating that the one half of the Fremont voters want to keep our current form of government but that another one half of voters like Senate Bill 2 (SB2) with ballot voting. With this article, there needs to be a 9-member elected commission to investigate if we want to adopt a charter. The commission will come back to voters with the results of their investigation. Voting for the commission will take place on Election Day, March 9, 2004.

ARTICLE 8. To transact any other business which may legally come before this meeting.

A motion was made by Member Guidoboni to adjourn the meeting. Seconded by Citizen Helena Dreyer. ***With no further transactions to come before the voting body, the meeting was officially closed.***

Respectfully Submitted By: Kathi Picone, Fremont School District Board Clerk

SCHOOL BOARD REPORT

The 2004-2005 school year has certainly been a year of improvement and transition in our school system. It is pleasing to serve the residents of our town; a community with the desire to support education at a reasonable cost while tirelessly seeking commonsense approaches to our shared responsibility of educating the next generation. The following list is a summary of many high profile events that unfolded over the past year:

The Ellis School/Fremont community welcomed our new **Principal, Kelli Killen**, in July of 2004. Ms. Killen is certified in Elementary Education and holds a Master's Degree in Educational Leadership. Ms. Killen received unanimous approval of the Principal Search Committee (composed of staff, teachers, aides, parents, school board and community members). Ms. Killen has brought many fresh ideas and welcomed changes to Ellis School. An overall feeling of true communication and a team approach has made a tremendous positive impact on staff, students and community.

Mr. Jason Butler came aboard as our **Administrator of Student Relations**. This position was deemed to be an important element of the implementation of a student discipline policy and procedures to promote student equity and dignity through positive behavior.

In keeping with the District's Three Year Plan for strong educational programs, **Ms. Faye McDonough** became our **Director of Curriculum**. Ms. McDonough has begun the process of aligning our curriculum with the Sanborn School District as well as the process of curriculum mapping for all grade levels to facilitate grade level transitions and to meet state standards and No Child Left Behind.

Ms. Sonja Gonzalez, Director of Technology, has positively affected the Ellis School Technology Program. Ms. Gonzalez's certification as a Computer Technology Educator allows our district to take advantage of her teaching skills in addition to her technology training. Ms. Gonzalez has saved our district money in getting donated items as well as grant funding available to purchase computer equipment. Ms. Gonzalez has already begun with teaching within the school as well as making technical changes which provide more efficient use as well as less money. Ms. Gonzalez has been working hard on the development and design of the Ellis School Web Site. Soon the Fremont community will have access to find useful information in all areas of the school as well as many useful links. This will assist in better communication between the Ellis Staff and the Fremont Community as a whole.

The entire Ellis School staff worked hard this year to support several initiatives designed to improve many of our education, behavior, and student programs. Our community is truly blessed to have many dedicated people in its employ.

The roof project, a warrant article approved by the voters in 2003, is complete. The project included removal and replacement of the entire roof surface of the existing building as well as replacement of some roof decking. Many of the ceiling tiles were

water-stained. All tiles were replaced as part of the roof project, and the old leaky skylights were also replaced. The wooden roof overhang and trim areas were also covered with a maintenance free finish and the entire building is now protected with a new roof system with a 15-year guarantee (flat roof areas) and 25-year guarantee (sloped roof areas). This project was financed with a \$500,000 10-year bond, which currently has 9 years of remaining payments. The total cost of the project was approximately \$400,000 the remaining money (approximately \$100,000) will be returned to the school district and can be used to reduce taxes or for other school purposes as determined by the voters.

The 8-classroom addition project, a warrant article approved by the voters in 2004, is currently on schedule for February occupancy and is on budget. The project included upgrades to the septic system, parking area, athletic field, surface water drainage, utilities, and the construction of 8 new classrooms. The building portion of the project is complete and the remaining outdoor activities, (final landscaping grading, finish coat of asphalt, field over seeding, etc.) will be completed when the weather breaks in the springtime. The project is financed with a \$2,380,000 10-year bond, which currently has 10 years of remaining payments. The total cost of the project is expected to be \$2,380,000. The school board is very thankful for the kindness of our neighbors who allowed parking of Ellis School staff vehicles and student physical activities on their property.

The New Sanborn Regional High School Building Committee has been meeting all year with representatives from Lavalee/Brensinger Architects and Harvey Construction. Chris Kenneway has been working as a voting member of the New High School Building Committee representing Fremont. The High School is scheduled for occupancy in the summer of 2006. An aggressive schedule and a committed team are required to meet this deadline. To date both are in place. In the fall a groundbreaking ceremony was held at the building site and it was wonderful to see students, families and community members from Fremont, Kingston and Newton participating in the ceremony and barbecue. Since that time the site has changed dramatically. A true picture of the large expanse of the new high school building and grounds is now taking shape. The footings for the gymnasium and one of the classroom wings are in place. Until now the new high school could only be captured in architectural drawings and a computer generated virtual high school. It is exciting to see the building slowly becoming a physical reality. The Sanborn website, www.sanborn.k12.nh.us, has a link to the Building Committee web site that contains a time line, photographs and other information. Check in every now and then to find out what is new at the building site.

Our board functioned for the entire year with one member, Lisa Begley, serving overseas in the US Army. Lisa kept up with school district business as best as she could from the Middle East. We pray for her safe return to Fremont this spring and look forward to her presence again at our board meetings.

We are looking forward to the coming school year with great expectations for our students as they experience relief from many years of overcrowding and our staff as they continue to implement the next steps of the programs introduced over the past year.

PRINCIPAL'S REPORT

The structures of Ellis School have changed in many ways during the 2004-2005 school year. Some of the structures are obvious, such as the new addition. Others are not so obvious like the learning environment and the curriculum. All of the structures have changed so that your children will have the best educational opportunities that Ellis School can provide.

We'll begin with the most visible sign of structural change, the addition. Your generosity has given our primary students in preschool, first, and second grade, eight state of the art classrooms in which to learn. The addition was completed on schedule and on budget. These extra rooms allow for all the regular classrooms of the school to be housed within the school building and for the Unified Arts classes to have a classroom of their own. Students were moved into their new classrooms during the last few weeks of February with assistance from numerous community volunteers. A new playground is planned for the late spring with new equipment that all students in the community can enjoy.

During the building of the addition, we had many of our neighbors help us with parking and play areas. Special thanks to the Fremont Pizzeria for allowing staff and parents to use the parking lot. Also, special thanks to the Fremont Police Department for helping us with traffic patterns and allowing for parking at the Safety Complex. We would like to thank Jeff and Justin Philbrick of Poplin Way and Colonial Poplin for letting our students use the front lawn for a playground, and to Mrs. LeClair, who also allowed our students to use her lawn as a play area.

Leadership

Another structure that has changed at Ellis is the administration. To reflect the society in which we live and to better serve the students, an administrative team was put in place this year at Ellis. It is my privilege to lead and work with this team to focus on the areas of most importance to students and parents, that of the learning environment and the curriculum. This team includes the Director of Student Relations, the Director of Curriculum, Director of Special Education, and the Director of Technology. This team has streamlined the budget so that we are purchasing the materials that are needed to implement the curriculum and meet the demands of state and federal laws such as No Child Left Behind.

Learning Environment

Ellis School is following a school wide behavior management system that is based on reinforcing positive behaviors called Positive Behavior Interventions and Support (PBIS). This system has improved school climate and teaches our students to be good citizens.

The expectations for student and staff conduct are:

- Be Respectful
- Be Responsible
- Be Prepared

Each expectation will be taught, practiced, and rewarded. Students clearly know what it means to meet those expectations in all areas of school life, from classrooms to field trips.

The Director of Student Relations, Jason Butler, is responsible for the implementation of PBIS along with staff. He also handles discipline issues, counsels with parents and students, to improve behaviors that

allow students to learn. Data collection on the incidents of inappropriate behavior is used to inform us on how the system is working and the areas in which we need to focus. Based on the data collection thus far, there has been a decrease in incidents of harassment, bullying, and fighting. Ellis School is a safer place for all students.

Curriculum

The area that has seen the most work has been in curriculum under the capable direction of our Director of Curriculum, Faye McDonough. The School Board formally adopted New Hampshire's Frameworks and Grade Level Expectations as our guide for what students should know and be able to do from grade one through eight. This year the work has begun to align what is currently being taught to those Frameworks and Expectations. The focus of our work has been on reading, writing, and math. Not only are those subjects the foundation for further studies, but data collected from standardized test scores has shown those are areas in which we need to improve. Teachers are working with the Curriculum Director to plan and teach units of study in those areas.

How we assess and are accountable that students have met those grade level expectations is also being addressed. The State of New Hampshire will require a state test in grades three through eight beginning in the fall of 2005. We will also be using a computer based test in reading, writing, and math in which test results will be available within 48 hours so that teachers can use those to inform their instruction and set individual goals for students.

Work is also being done at our Middle School Level to implement many of the suggestions from the New England League of Middle Schools report that was issued this summer based on their visit last year. One of those suggestions was to have a Health class, which we have been able to offer to all of our students in grades one through eight as a Unified Art class along with Physical Education, Art, Music, Library, and Computers.

All of this work on curriculum and assessments meets the requirements of No Child Left Behind. I pleased to let you know that all of our Elementary teachers meet the Highly Qualified requirements of No Child Left Behind. Teachers at the Middle School level have to be qualified for each subject that they teach. At this time, all the teachers at the Middle School are qualified or working on a plan to meet those requirements.

Technology

Under the guidance of our Director of Technology, Sonja Gonzalez, Ellis School is being modernized in terms of our technology capabilities. The building now has wireless capabilities and students have a wireless laptop lab, purchased through a grant, which teachers are utilizing for research, word processing, and project work. Due to a grant, all teachers now have a laptop on which to do the curriculum work that was mentioned above, access the results from the standardized testing, and integrate technology into units of study.

The students will have a state of the art computer lab in which to learn and work. This lab will also be used for adult education courses which we hope to offer in the not to distant future.

A new district and school website has been developed and will be up and running in the spring. This will allow you to access information about Ellis School and the many opportunities that it provides to students and their families.

A Computer Club has begun at the Middle School level under the guidance of Mrs. Gonzalez. Students who show an interest and aptitude for computer work are being trained to provide assistance to students and staff and fix computers.

About 20 teachers participated in a technology based course to further their skills in integrating technology with student learning. The course was taught by two of our own teachers.

A Gift

Becoming the principal of Ellis School has taken me back to my roots. I was born and raised in a little town in Missouri, much like Fremont. I attended a school that had Kindergarten through 12th grade all on one campus. Ellis School has the look and feel of that school in rural Missouri. I had a long journey from those days to now. I followed the family tradition and have sixteen years in education as a teacher and a principal. Through meeting and working with the families and community members of Fremont, I am reminded of the values, character, and pride of a small town.

I am struck by your commitment to the education of your youth as evidenced by the construction of additional classrooms and keeping the small school environment while other towns are consolidating. Most important is the work that is done on the inside of Ellis School. I am proud to work with the very talented people who have a willingness and desire to make the necessary changes that were talked about above. Their commitment to the best for children is evident in every thing that they do.

I feel that you have a gift in Ellis School that I have been most fortunate to receive. I will do my very best to cherish and nurture it as you would want and expect.

Respectfully,

Kelli R. Killen

SUPERINTENDENT'S MESSAGE

History. I have to admit that I didn't have a true appreciation of the subject when I was a student. Now that I am older, much older, I have gained that appreciation for it is in history that we remember where we came from, we gain insight and understanding, and we learn to respect the journey in making history and in some cases the struggle and sacrifice in righting the wrong. Everyone and everything including the Fremont School District has an associated history.

Back in March 1990 the Fremont School District began its most recent historical journey with the passage of its first cooperative planning committee to pursue a possible middle school district with the Chester School District. The September 1990 elementary student enrollment was 317 students. Three years later in March 1993 the committee recommended not pursuing a Chester-Fremont Cooperative School District for financial reasons as well as the potential issue of each district sending their students to different high schools. At this same meeting the second cooperative planning committee was approved to study the middle and high school issue. A year later a middle school study was commissioned and the results presented at the March 1995 annual meeting. It was reported that Ellis School exceeded its intended student capacity. The September 1994 elementary student enrollment was 364 students.

Three years later at the March 1996 annual meeting two committees reported. One was for a cooperative school district and the other for an alternative – a school building within the town. Both committees received support to continue with the cooperative committee approved for another three-year term and the alternative building committee receiving architectural and consultant funding. The following year the District approved the purchase of property for a future school site and Articles of Agreement for a Sanborn-Fremont Cooperative School District. Due to changes to the original articles of agreement, specifically cost apportionment, the articles were defeated by the Sanborn School District. Voter dissatisfaction spilled over and defeated the second option, a long-term tuition agreement with Fremont. The decision to break a long-standing tradition of Fremont, Kingston, and Newton students sharing their high school educational experience would prove costly to all three school districts in the years to come. Fremont was left with an over-capacity elementary school and without a permanent high school.

Epping High School became the designated high school for the Fremont District. The cooperative planning committee continued its work and presented a report at the March 1998 annual meeting. In March 1999 the Articles of Agreement between the Epping and Fremont School Districts were presented and approved by both districts to form the Epping-Fremont Cooperative School District. The articles included a provision to approve a new high school within two years. The September 1999 elementary student enrollment was 414 students, 50 more students than that reported five years prior.

Two attempts were made to approve a cooperative high school with both plans receiving majority, but not super majority as required by law. The cooperative dissolved in March 2001 upon the failure to approve a high school within the two-year period. Also in March 2001 Fremont initiatives including a middle/high school and an eight-room elementary addition were presented as an alternative to the cooperative and as a fall back plan if the cooperative did not succeed. The proposals were defeated. In response to the close vote on the Epping-Fremont Cooperative High School a last attempt was made in June 2001 to save the cooperative effort by

approving the formation of another cooperative planning committee by both communities. The Epping voters did not approve.

The cooperative planning committee followed in March 2002 with Articles of Agreement for an Auburn-Candia-Deerfield-Fremont Cooperative School District to resolve the elementary and high school issues. This cooperative was defeated by Auburn. The Fremont School District was also presented with alternative plans in the form of a Fremont Middle/High School and an Epping High School long-term tuition agreement. The middle/high school was not approved. The Epping District did not approve the construction of a new high school, invalidating the long-term tuition agreement. The cooperative planning committee followed again in May 2002 with Articles of Agreement for a Candia, Deerfield, and Fremont Cooperative School District. The second cooperative was defeated by Candia. The Deerfield and Fremont Districts decided not to continue.

In March 2003 the District was presented with a third middle/high school proposal and a second Ellis School addition proposal. Both proposals were again defeated. This vote marked ten years from the approval of the second cooperative planning committee. The elementary population increased by 65 students over this ten year period in a school that was determined to be over capacity in March 1993. The high school population increased by 50 students over the same ten-year period in a school district without a permanent high school.

Last year 2004 the District approved a 20-year tuition agreement with the Sanborn School District, an eight-room addition for Ellis School, and a cooperative planning committee. Present needs for both elementary and high school students, and a future cooperative school district were addressed. It had taken 5 cooperative planning committees, 4 cooperative school district attempts, 3 elementary school addition proposals, 3 middle/high school building proposals, 3 long-term tuition agreements, 105 more elementary students, and 14 years to reach this point.

There is no question that it was a struggle. Looking back I learned a couple of things sharing this journey with you. The most important was the significance of history and tradition, not only for our own school district, but also for other school districts. We have ended up full circle where we began - our elementary students attending Ellis School and our high school students attending Sanborn Regional High School. This was not an easy journey, but it was a journey that we had to make. There was plenty of hard work and disappointment for everyone. Let us not forget that there is much to celebrate also. Next month students will be moving into the new elementary addition and in the near future high school students will be attending a new Sanborn Regional High School. The circle is complete.

I hope over the next fourteen years we can dedicate the same focus and energy to education. We have much work to do in Ellis School and in coordinating with Sanborn Regional High School. Students, parents, community members, school board members, school staff, teachers, and administration have already begun this important work. Thank you to all of you that make Ellis School and Sanborn Regional High School the special schools they are and the even more special schools they are yet to become.

Barbara D. Munsey

DIRECTOR OF SPECIAL EDUCATION REPORT

The special education department began the 04/05 school year continuing to work collaboratively and seamlessly with regular education staff to increase student learning and achievement for students with disabilities in compliance with IDEA, Individuals with Disabilities Act, N.H. Rules for the Education of Children with Disabilities and No Child Left Behind.

Special education staff members continue to move forward in their efforts to provide specialized instruction, related services, family support, transition, school to work initiatives and increasing post-secondary options for students with disabilities. In addition, special education staff are active members of grade level teams supporting all students in the Fremont School District.

In house services at the Ellis school include speech and language therapy, occupational therapy, specialized instruction, case management and physical therapy. The Ellis Preschool program provides services to preschool age students in need of support. Services available to high school students and alternatively placed students include speech/language, occupational and physical therapy and case management. Services that are offered to students throughout the district include a Family Resource Coordinator, School Psychologist, transition planning, recreational therapy, and case management. The special education department continues to be an integral part of the PBIS initiative, first grade screening, child find, curriculum mapping and literacy activities.

As of December 1, 2004, 74 students with disabilities were being provided with special services at Ellis School, and 40 at the high school level. Students ages 3-21 are eligible for services as specified in state and federal regulations. We currently are working in 3 high schools and 9 specialized schools.

I would like to take this time to express my most sincere thanks to parents, community members and the Fremont School Board for your continued and unwavering support for all students in the Fremont School District. Your continued commitment has positively and significantly impacted children of all ages, therefore enabling them to grow and learn to be successful adults. It is a privilege to serve in a town that continuously supports educational opportunities for all.

Respectfully Submitted,

Dawn M. Lewis
Director of Special Education

"...My hope is that when you leave here today you will have no doubt about two things: First, your presence here today is important, as a people we must never lose sight of the fact that our nation's freedom and prosperity have been paid for with the blood of its sons and daughters; taking the time to honor those who can no longer share in the liberties they fought and died for is our duty as citizens. Second, you can be proud of the young men and women who today are defending freedom in over 120 countries around the globe; they are true patriots in every sense of the word who carry an unimaginable burden upon their young shoulders. It is my hope that they be able to return safely and fulfill the greatness they are capable of; I would ask each of you to make them a part of our thoughts and prayers not just today, but every day..."

Colonel Gary Stanley ~ Speaking at Fremont's Annual Memorial Day Services ~ 30 May 2004

REPORT OF FREMONT CHARTER COMMISSION

In March of 2004, voters approved the formation of a Charter Commission. The Commission's duty was limited to the creation of a charter, which complies with RSA 49-D3, IIa. by which a charter may establish voting on some or all school district warrant articles, including part or all of the school district's budget.

The Charter Commission held their organizational meeting on March 31, 2004. The nominations for the positions of Chairman, Vice-Chairman, and Recording Secretary were voted on.

The Commission's members included:

Marian Guidoboni, Chairman
Joseph Dreyer, Vice-Chairman
Christine Kenneway, Recording Secretary
Angel Lesiczka, Member
Michelle Nihan, Member
Kathy Picone, Member
Linda Zukas, Member

Further meetings were held pursuant to the legal time-line required. Based upon community input and overall consensus of the Commission, the Charter was written and approved with the vote being all in favor (see attached Charter).

The intent of the Charter is to preserve the traditional meeting with bond issues being voted at the ballot booth. The Charter will be placed on the March 2005 ballot.

Chairman, Fremont Charter Commission
October 12, 2004

FREMONT SCHOOL DISTRICT
CHARTER for OFFICIAL BALLOT VOTING

This Charter sets forth the procedures and practices to establish a Budgetary School District meeting for voting on certain issues by Official Ballot under the provisions of Chapter 53, 1995 Session Laws, RSA 197:5-b and RSA 49-D:3, II-a.

I. PREAMBLE

To expand the ability of the voters of the Fremont School District to participate in the voting process on bonds and notes, the Fremont School District will use the Official Ballot for voting on certain warrant articles as prescribed by this Charter under RSA 197:5-b and RSA 49-D:3, II-a. This Charter, upon adoption, shall utilize the school open meeting process for decisions on all matters other than the issuance of bonds or notes under RSA 33:8-a and shall utilize the school open meeting process and official ballot voting under RSA 40:13 for the authorization of the issuance of bonds and notes under RSA 33:8-a.

II. POWERS

A. The residents of the Fremont School District shall continue to be a body politic as a school district under the name Fremont School District and shall have all the powers which are now or hereafter conferred upon school districts under the NH State Constitution and the Laws of the State of New Hampshire.

B. Except as provided herein, the School District shall follow the provisions of applicable general law as it exists and is amended hereafter, including without limitation the general laws relative to school meetings, warning, and the right for petitioned articles.

III. ANNUAL MEETING FOR THE TRANSACTION OF ALL SCHOOL BUSINESS EXCEPT THE AUTHORIZATION OF THE ISSUANCE OF BONDS AND NOTES UNDER RSA 33:8-a.

Each year the Fremont School District shall hold its annual meeting for the conduct of all business, except for the authorization of the issuance of bonds or notes under RSA 33:8-a, at a time and place designated by the School Board, provided that the date for the annual meeting shall be after the date for the election of School District officers and official ballot voting in the District (currently the 2nd Tuesday in March).

The general law requirements for posting the warrant, completing the budget, posting notice for public hearings, the submission of petition articles and the finalization of cost items and for all other actions to be taken at the annual meeting shall be calculated from the date set for the annual meeting. Procedures for the conduct of a

traditional annual meeting and all general laws applicable to traditional school district meetings shall govern the conduct of the annual meeting.

IV. OFFICIAL BALLOT PROCESS FOR THE AUTHORIZATION OF THE ISSUANCE OF BONDS AND NOTES UNDER RSA 33:8-a.

A. In order to authorize the issuance of a bond or note under RSA 33:8-a proposed by either the School Board or by petition two additional sessions of the annual School District meeting will be held.

B. The first session shall be exclusively for the transaction of all business concerning the issuance of bonds or notes under RSA 33:8-a.

C. The first session shall be held on a date that would comply with the date for holding the first session of a meeting under RSA 40:13 with a March election date and shall be conducted in accordance with RSA 40:13, IV except that in order to amend a proposed article a two-thirds majority vote shall be required.

D. The second session of the meeting will be for Official Ballot Voting on the article or articles as amended from the first session proposing approval of bonds or notes under RSA 33:8-a and shall be held in accordance with RSA 40:13, VII and XII.

E. A warrant and budget for the sessions to vote on the authorization of the issuance of bonds or notes under RSA 33:8-a will be posted in accordance with RSA 40:13, II.

F. For bonds or notes under RSA 33:8-a, the budget and bond hearings, notice of the budget and bond hearing, the deadline for publication of bond hearing under RSA 33:8-a, the date for petition articles requesting the authorization of the issuance of bonds or notes under RSA 33:8-a and all other procedural deadlines shall be determined in RSA 40:13, II-a.

G. Approval of bonds or notes shall be authorized by a vote of three-fifths (3/5ths). Only votes in the affirmative or negative shall be included in the calculation of any majority.

H. If no bond or note under RSA 33:8-a is proposed by the School Board or by Petition in any year, no official ballot warrant will be posted and no official ballot process for the issuance of bonds or notes will be held.

V. SPECIAL MEETING.

Special meetings to consider authorizing the issuance of bonds or notes under RSA 33:8-a shall be held in accordance with the time limits for special meetings under RSA 40:13 provided, however, that the rules of this Charter relative to the amendment of proposed articles at the first session of the meeting and the required majority for the

adoption of bond articles shall apply. Special meetings to consider all other business of the School District will be conducted in accordance with the general laws and RSA 197 et. seq.

VI. EFFECTIVE DATE

Upon passage by a majority of the voters of the Fremont School District present and voting on the question at the annual meeting in March 2005, the provisions of this Charter shall become effective on July 1, 2005.

VII. CHARTER AMENDMENTS/RESCISSION

This Charter may be amended or rescinded as provided by general law.

NOTES

Town of Fremont NH General Information

Website: www.Fremont.nh.gov

Emergency: DIAL 9 1 1

All Town Department Office Hours and contact information are listed in the beginning of your Annual Town report.

Winter Parking Ban: In effect from November 15th to April 1st, no parking on any public street or any town-owned right-of-way or town-owned parking lot between 12 midnight and 6:00 am. Vehicles interfering with snow plowing or removal operations shall be towed at the owner's expense.

Dog Registration: Register by April 30th annually; if dog is over 3 months old.

Voter Registration: Register with Town Clerk during any office hours, the day of an election at the polls, or with the Supervisors of Checklist during any posted session. Verification of age, domicile and citizenship are the requirements to register to vote.

Trash & Recycling Collection: Performed by private contract with Cape Disposal. Collection days are Wednesday and Thursday except for major holidays as posted. Contact Cape with any questions or concerns at 778-7150.

Newsletter: Published monthly with submittals due by the 15th of the month prior, by email to Selectmen@Fremont.nh.gov

Planning Board: Generally meets the 2,3, and 4th Wednesdays of the month at 7:30 pm

Zoning Board: Generally meets on Tuesday evenings as applications are received

Board of Selectmen: Meets weekly on Thursday evenings at 6:00 pm

Conservation Commission: Meets the 1st and 3rd Monday of the month at 7:30 pm

Open Space Committee: 1st and 2nd Tuesday of the month at 7:00 pm

Parks & Recreation: Meets the 2nd Wednesday of the month at 7:00 pm

Call the Town Offices at 895-2226 or check monthly schedules posted and published in the Newsletter for up to date information on public meetings.
